**SOAH DOCKET NO. 453-04-2217.M2**

**NOTICE OF INDEPENDENT REVIEW DECISION**

December 12, 2003

MDR Tracking #: M2-04-0343-01  
IRO Certificate #: IRO 4326

The \_\_\_ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to \_\_\_ for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

\_\_\_ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a \_\_\_ physician reviewer who is board certified in pain management/anesthesiology which is the same specialty as the treating physician. The \_\_\_ physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to \_\_\_ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

This patient sustained an injury on \_\_\_, mechanism unknown. There were no medical records or clinical notes submitted.

Requested Services

Bilateral transforaminal epidural steroid injections at bilateral S1

Decision

It is determined that the proposed bilateral transforaminal epidural steroid injections to bilateral S1 are not medically necessary to treat this patient's condition.

Rationale/Basis for Decision

No. There is no documentation supporting the request for epidural injection for this patient. Therefore, the proposed bilateral transforaminal epidural steroid injections to bilateral S1 are not medically necessary to treat this patient's condition.

This decision by the IRO is deemed to be a TWCC decision and order.
