

## NOTICE OF INDEPENDENT REVIEW DETERMINATION

MDR Tracking Number: M2-04-0405-01  
IRO Certificate No.: 5259

December 10, 2003

An independent review of the above-referenced case has been completed by a medical physician board certified in physical medicine and rehabilitation. The appropriateness of setting and medical necessity of proposed or rendered services is determined by the application of medical screening criteria published by \_\_\_\_, or by the application of medical screening criteria and protocols formally established by practicing physicians. All available clinical information, the medical necessity guidelines and the special circumstances of said case was considered in making the determination.

The independent review determination and reasons for the determination, including the clinical basis for the determination, is as follows:

See Attached Physician Determination

\_\_\_ hereby certifies that the reviewing physician is on Texas Workers' Compensation Commission Approved Doctor List (ADL). Additionally, said physician has certified that no known conflicts of interest exist between him and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for determination prior to referral to \_\_\_.

### CLINICAL HISTORY

46 year-old female with neck pain exacerbation after a fall on \_\_\_ at work. This is in the setting of cervical disectomy, two level for cervical radiculopathy i.e. right UE dysesthetic pain.

### REQUESTED SERVICE (S)

Purchase of an RS4i sequential stimulator 4-channel combination interferential and muscle stimulator unit.

### DECISION

Uphold previous denial.

### RATIONALE/BASIS FOR DECISION

According to peer-reviewed literature by Dr. R.E. Winsor et al. in 1993; as well as treatment guidelines outlined by Jeffrey L. Young, MD in the Low Back Pain Handbook, 1997, therapeutic electricity, including interferential electrical stimulation, is best used during the acute phase of rehabilitation, only to facilitate a long-term stretching, range of motion and strengthening program.
