NOTICE OF INDEPENDENT REVIEW DECISION

RE: MDR Tracking #: M2-04-0631-01

___ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The ___ IRO Certificate Number is 5348. Texas Worker's Compensation Commission (TWCC) Rule §133.308 allows for a claimant or provider to request an independent review of a Carrier's adverse medical necessity determination. TWCC assigned the above-reference case to ___ for independent review in accordance with this Rule.

___ has performed an independent review of the proposed care to determine whether or not the adverse determination was appropriate. Relevant medical records, documentation provided by the parties referenced above and other documentation and written information submitted regarding this appeal was reviewed during the performance of this independent review.

This case was reviewed by a practicing physician on the ___ external review panel. The reviewer has met the requirements for the ADL of TWCC or has been approved as an exception to the ADL requirement. This physician is board certified in neurosurgery. The ___ physician reviewer signed a statement certifying that no known conflicts of interest exist between this physician and any of the treating physicians or providers or any of the physicians or providers who reviewed this case for a determination prior to the referral to ___ for independent review. In addition, the ___ physician reviewer certified that the review was performed without bias for or against any party in this case.

Clinical History

This case concerns a male who sustained a work related injury on ___. The diagnoses for this patient have included displacement of lumbar intervertebral disc, degenerative disc disease, spinal stenosis, and lumbosacral radiculitis. The patient has undergone a lumbar decompression of L3-L4, posterolateral fusion at L3-L4, pedicle screw instrumentation at L3-L4 and application of bone stimulator on 4/25/01. The patient has also been treated with oral medications.

Requested Services

Purchase of Interferential Muscle Stimulator.

Decision

The Carrier's denial of authorization for the requested services is upheld.

Rationale/Basis for Decision

The ___ physician reviewer noted that this case concerns a male who sustained a work related injury to his lumbar spine on ___. The ___ physician reviewer also noted that the diagnoses for this patient have included displacement of lumbar intervertebral disc, degenerative disc disease, spinal stenosis and lumbosacral radiculitis. The ___ physician reviewer further noted that treatment for this patient's condition has included a lumbar decompression of L3-L4, posterolateral fusion L3-L4, pedicle screw instrumentation L3-L4, application of bone stimulator on 4/25/01, oral medications and an RS4i Sequential Stimulator.

The ___ physician reviewer explained that despite frequent use of the interferential muscle stimulator, there are no prospective blinded controlled trials proving its efficacy. Therefore, the ___ physician consultant concluded that the requested purchase of an Interferential Muscle Stimulator is not medically necessary to treat this patient's condition at this time.

This decision is deemed to be a TWCC Decision and Order.
