

**THIS DECISION HAS BEEN APPEALED. THE  
FOLLOWING IS THE RELATED SOAH DECISION NUMBER:**

**SOAH DOCKET NO. 453-04-3678.M2**

**NOTICE OF INDEPENDENT REVIEW DECISION**

February 3, 2004

RE: Injured Worker:  
MDR Tracking #: M2-04-0676-01  
IRO Certificate #: IRO 4326

The \_\_\_ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to \_\_\_ for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

\_\_\_ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a \_\_\_ physician reviewer who is board certified in neurosurgery which is the same specialty as the treating physician. The \_\_\_ physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to \_\_\_ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

This patient sustained an injury on \_\_\_ while pulling on a truck pin and noted severe back pain after a hard pull. MRIs revealed disc herniation at L3-4 and L4-5, disc protrusion at L5-S1, and a large C5-6 disc with cord impingement for which he had a cervical discectomy and fusion. The patient eventually had a lumbar laminectomy and then developed post laminectomy syndrome with continued radiculopathy. He has undergone lumbar and caudal epidural steroid injection and long-standing narcotic pain medication therapy.

Requested Service(s)

Lumbar discogram with CT scan

Decision

It is determined that the lumbar discogram with CT scan is medically necessary to treat this patient's condition.

Rationale/Basis for Decision

Discography, as proposed in this patient, is a reasonable diagnostic tool and medically necessary to evaluate the clinical situation and possible necessity for re-operation to the involved fusion. Therefore, it is determined that the lumbar discogram with CT scan is medically necessary.

This decision by the IRO is deemed to be a TWCC decision and order.

## YOUR RIGHT TO REQUEST A HEARING

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing.

**If disputing a spinal surgery prospective decision** a request for a hearing must be in writing and it must be received by the TWCC Chief Clerk of Proceedings within **10** (ten) calendar days of your receipt of this decision (28 Tex. Admin. Code 142.5 (c)).

**If disputing other prospective medical necessity (preauthorization) decisions** a request for a hearing must be in writing, and it must be received by the TWCC Chief Clerk of Proceedings within **20** (twenty) calendar days of your receipt of this decision (28 Tex. Admin. Code 142.5(c)).

This decision is deemed received by you 5 (five) days after it was mailed or the date of fax (28 Tex. Admin. Code 102.5(d)). A request for hearing and a **copy of this decision** must be sent to: Chief Clerk of Proceedings/Appeals Clerk, Texas Workers' Compensation Commission, P.O. Box 17787, Austin, Texas, 78744, Fax: 512-804-4011.

The party appealing this decision shall deliver a copy of its written request for a hearing to all other parties involved in this dispute.

Sincerely,

In accordance with Commission Rule 102.4 (h), I hereby verify that a copy of this Independent Review Organization (IRO) Decision was sent to the carrier, the requestor and claimant via facsimile or U.S. Postal Service from the office of the IRO on this 3 <sup>rd</sup> day of February 2004.
