

NOTICE OF INDEPENDENT REVIEW DETERMINATION

MDR Tracking Number: M2-04-0683-01
IRO Certificate Number: 5259

January 26, 2004

An independent review of the above-referenced case has been completed by a medical physician board certified in family practice. The appropriateness of setting and medical necessity of proposed or rendered services is determined by the application of medical screening criteria published by ____, or by the application of medical screening criteria and protocols formally established by practicing physicians. All available clinical information, the medical necessity guidelines and the special circumstances of said case was considered in making the determination.

The independent review determination and reasons for the determination, including the clinical basis for the determination, is as follows:

See Attached Physician Determination

___ hereby certifies that the reviewing physician is on Texas Workers' Compensation Commission Approved Doctor List (ADL). Additionally, said physician has certified that no known conflicts of interest exist between him and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for determination prior to referral to ___.

CLINICAL HISTORY

Minimal clinical records were submitted for this review. Apparently this patient had a work related injury on ____. She had a fusion at some point but no records are available for review. A notation is made that she was treated with medications but no specifics were submitted. A request for surgery was denied as was a request to purchase a muscle stimulator. An appeal letter on the muscle stimulator was denied as well.

REQUESTED SERVICE(S)

Purchase of an interferential muscle stimulator.

DECISION

Uphold denial.

RATIONALE/BASIS FOR DECISION

Because of the paucity of medical records, medical necessity for this device cannot be established.

This device is generally used as an adjunctive therapy in the acute phase of treatment. No extraordinary circumstances or response are substantiated to justify this device. Therefore, the prior denial is upheld.
