IRO Certificate # 5259

April 26, 2004

An independent review of the above-referenced case has been completed by a medical physician board certified in family practice. The appropriateness of setting and medical necessity of proposed or rendered services is determined by the application of medical screening criteria published by ____, or by the application of medical screening criteria and protocols formally established by practicing physicians. All available clinical information, the medical necessity guidelines and the special circumstances of said case was considered in making the determination.

The independent review determination and reasons for the determination, including the clinical basis for the determination, is as follows:

See Attached Physician Determination

___ hereby certifies that the reviewing physician is on Texas Workers' Compensation Commission Approved Doctor List (ADL). Additionally, said physician has certified that no known conflicts of interest exist between him and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for determination prior to referral to ___.

CLINICAL HISTORY

___ had a work related injury on ___ diagnosed as an impingement syndrome of the shoulder. He was treated extensively with a muscle stimulator, medications, injections, light duty restrictions, and physical therapy. He deferred surgery because of a cardiac history.

REQUESTED SERVICE (S)

Purchase of an IF muscle stimulator

DECISION

Denied.

RATIONALE/BASIS FOR DECISION

No significant objective evidence is submitted to prove the efficacy of this device for ____. Also, no peer review literature or accepted guidelines recommend the use of a muscle stimulator for his diagnoses. This view is supported by CMS and NASS guidelines and the Philadelphia Panel Study. Therefore the request to purchase an IF muscle stimulator is denied.
