An independent review of the above-referenced case has been completed by a medical physician board certified in family practice. The appropriateness of setting and medical necessity of proposed or rendered services is determined by the application of medical screening criteria published by ___ or by the application of medical screening criteria and protocols formally established by practicing physicians. All available clinical information, the medical necessity guidelines and the special circumstances of said case was considered in making the determination.

The independent review determination and reasons for the determination, including the clinical basis for the determination, is as follows:

See Attached Physician Determination

___ hereby certifies that the reviewing physician is on Texas Workers' Compensation Commission Approved Doctor List (ADL). Additionally, said physician has certified that no known conflicts of interest exist between him and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for determination prior to referral to ___.

CLINICAL HISTORY

25 pages of records were submitted for review including prescriptions for an interferential muscle stimulator, denial letters, and request letters from ___. Apparently this patient had a right knee injury treated with physical therapy, medications, surgery, and a muscle stimulator. No clinical records, progress notes, surgical reports, nor patient usage log for this device or medications were submitted.

REQUESTED SERVICE (S)

Purchase of an Interferential Muscle Stimulator

DECISION

Denied.

RATIONALE/BASIS FOR DECISION

Due to the paucity of objective, clinical evidence for efficacy of this device, medical necessity cannot be established to purchase this device for this patient. Also, no peer review literature or generally accepted guidelines support the use this device for knee pain or patients who are status post knee surgery. For these reasons, the request to purchase this device is denied.
