

IRO Certificate #4599

NOTICE OF INDEPENDENT REVIEW DECISION

June 14, 2004

Re: IRO Case # M2-04-1356

Texas Worker's Compensation Commission:

___ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IROs, TWCC assigned this case to ___ for an independent review. ___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, ___ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Anesthesiology and Pain Management, and who has met the requirements for the TWCC Approved Doctor List or who has been granted an exception from the ADL. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to ___ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the ___ reviewer who reviewed this case, based on the medical records provided, is as follows:

Medical Information Reviewed

1. Table of disputed services
2. Denial letters
3. M.D. pain management progress notes
4. Prescription 9/9/03
5. Letter from patient, undated
6. Operative report 8/18/03
7. MRI of the lumbar spine report 11/18/03

History

The patient is a 45-year-old female who has had leg and back pain since an ___ L5 laminectomy with partial discectomy and L5-S1 foraminotomy and injections. She has an abnormal EMG. An MRI shows no focal lesions

Requested Service(s)

Purchase of a muscle stimulator

Decision

I disagree with the carrier's decision to deny the requested purchase.

Rationale

Although the patient has increased her use of pain medications, and has persistent pain, the patient stated in a letter that use of the stimulator is beneficial in allowing her to sleep. The patient's comfort level is improved significantly with use of the RS-4i unit.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.

YOUR RIGHT TO REQUEST A HEARING

Either party to medical dispute may disagree with all or part of the decision and has a right to request a hearing.
