IRO Certificate #4599

NOTICE OF INDEPENDENT REVIEW DECISION

January 15, 2005

Re: IRO Case # M2-05-0607-01

Texas Worker's Compensation Commission:

Envoy Medical Systems, LP (Envoy) has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule 133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IROs, TWCC assigned this case to Envoy for an independent review. Envoy has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, Envoy received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Anesthesiology and Pain Management, and who has met the requirements for the TWCC Approved Doctor List or who has been granted an exception from the ADL. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to Envoy for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the Envoy reviewer who reviewed this case, based on the medical records provided, is as follows:

Medical Information Reviewed

1. Table of disputed services
2. Denial letters
3. Letters Dr. Hicks 10/14/04, 9/30/04
4. Prescription 10/13/04
5. Initial medical report Dr. Hicks 7/12/04
6. Reports Dr. Hicks 2004

7. RS Medical information and usage reports
8. MRI report 8/23/04

History

The patient is a 47-year-old female who has had back and leg pain since and ___ injury. An MRI was performed, and the patient has been treated with medications, as well as with usage of an RS4i unit. Purchase of an RS4i unit has been prescribed for a diagnosis of lumbago.

Requested Service(s)

Purchase RS4i sequential inferential and muscle stimulator unit

Decision

I agree with the carrier's decision to deny the requested purchase.

Rationale

The patient's physician's letter of 10/14/04 mentions improved sleep, decreased pain and decreased medication usage, but the patient's pain levels were unchanged before, during and after usage of the RS4i unit, per the physician notes of 7/12/04, 9/17/04, and 11/12/04.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.
