IRO Certificate #4599

NOTICE OF INDEPENDENT REVIEW DECISION

March 4, 2005

Re: IRO Case # M2-05-0640

Texas Worker's Compensation Commission:

Envoy Medical Systems, LP (Envoy) has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule 133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IROs, TWCC assigned this case to Envoy for an independent review. Envoy has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, Envoy received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Anesthesiology and Pain Management, and who has met the requirements for the TWCC Approved Doctor List or who has been granted an exception from the ADL. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to Envoy for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the Envoy reviewer who reviewed this case, based on the medical records provided, is as follows:

Medical Information Reviewed

1. Table of disputed services
2. Denial letters
3. Carrier case summary 12/13/04
4. Prescription for stimulator 7/14/04

5. Progress notes 2004 Dr. Hernandez
6. Letter 8/23/04 Dr. Hernandez
7. Pharmacy notes
8. Work hardening/ FCE notes
9. Handwritten notes regarding knee pain (physician name not legible)

History

The patient is a 39-year-old male who in has had back and shoulder pain since an _____. Work hardening and medications have been utilized in treating the patient.

Requested Service(s)

Purchase RS4i sequential interferential and muscle stimulator

Decision

I agree with the carrier's decision to deny the requested purchase.

Rationale

The records provided for this review did not contain any clinical information documenting increased function or decreased medication usage related to use of the stimulator.

There is no data to support the benefit of interferential unit for long term use over a TENS unit, although I have found in my experience that selected patients can benefit from this modality. The records provided in this case do not show the benefit to this patient. Therefore, the purchase is not reasonable and necessary.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.
