RE: Injured Worker:  
MDR Tracking #: M2-05-0680-01  
IRO Certificate #: IRO4326

The Texas Medical Foundation (TMF) has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to TMF for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

TMF has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a TMF physician reviewer who is board certified in Orthopedic Surgery, by the American Board of Orthopaedic Surgery, Inc. licensed by the Texas State Board of Medical Examiners (TSBME) in 1978, and who provides health care to injured workers. This is the same specialty as the treating physician. The TMF physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to TMF for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

### Clinical History

This 55 year-old male injured his right knee on \_\_\_ while uncovering some pipes at a work site. He has been treated with therapy, medications, epidural injections, and surgery.

### Requested Service(s)

Purchase of Bionicare Bio 1000 system for right knee

### Decision

It is determined that there is no medical necessity for the purchase of a Bionicare Bio 1000 system for the right knee to treat this patient's medical condition.

Rationale/Basis for Decision

Medical record documentation indicates this patient has advanced osteoarthritis of the right knee. There is no available non-operative therapy available to the change, improve or alter this condition. Therefore, purchase of a Bionicare Bio 1000 system for the right knee is not medically necessary to treat this patient's medical condition.

This decision by the IRO is deemed to be a TWCC decision and order.
