RE: Injured Worker:
MDR Tracking #: M2-05-1455-01
IRO Certificate #: IRO4326

The Texas Medical Foundation (TMF) has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to TMF for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

TMF has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a TMF physician reviewer who is board certified in Orthopedic Surgery, by the American Board of Orthopaedic Surgery, Inc. licensed by the Texas State Board of Medical Examiners (TSBME) in 1986, and who provides health care to injured workers. This is the same specialty as the treating physician. The TMF physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to TMF for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

This 32 year-old male injured his low back on ___ after twisting while lifting a box of copy paper. His has been treated with medications, therapy and surgery.

Requested Service(s)

Lumbar and thoracic computed tomographic myelogram

Decision

It is determined that there is no medical necessity for the lumbar and thoracic computed tomographic myelogram to treat this patient's medical condition.

Rationale/Basis for Decision

Medical record documentation indicates this patient has undergone a multitude of therapies and surgery for his low back injury. The magnetic resonance imaging performed in April 2004 failed to reveal anatomic abnormality that could be the etiology of his persistent, severe pain. In February 2005, the treating physician recommended a lumbar and thoracic computed tomographic myelogram; however, the examination did not

provide specific objective neurological deficits that would indicate a change in the patient's neurological status. Without changes in neurological findings, there is no reason to pursue changes in anatomy. Therefore, the lumbar and thoracic computed tomographic myelogram is not medically necessary to treat this patient's medical condition.

This decision by the IRO is deemed to be a TWCC decision and order.

YOUR RIGHT TO REQUEST A HEARING

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing.

If disputing a spinal surgery prospective decision a request for a hearing must be in writing and it must be received by the TWCC Chief Clerk of Proceedings within **10** (ten) calendar days of your receipt of this decision (28 Tex. Admin. Code 142.5 (c)).

If disputing other prospective medical necessity (preauthorization) decisions a request for a hearing must be in writing, and it must be received by the TWCC Chief Clerk of Proceedings within **20** (twenty) calendar days of your receipt of this decision (28 Tex. Admin. Code 142.5(c)).

This decision is deemed received by you 5 (five) days after it was mailed or the date of fax (28 Tex. Admin. Code 102.5(d)). A request for hearing and a **copy of this decision** must be sent to: Chief Clerk of Proceedings/Appeals Clerk, Texas Workers' Compensation Commission, P.O. Box 17787, Austin, Texas, 78744, Fax: 512-804-4011.
