NOTICE OF INDEPENDENT REVIEW DECISION

August 8, 2005

Re: IRO Case # M2-05-2014-01

Texas Worker's Compensation Commission:

Envoy Medical Systems, LP (Envoy) has been certified as an independent review organization (IRO) by the Texas Department of Insurance and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation cases Texas HB. 2600, Rule133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that Worker's compensation assign cases to certified IROs, this case was assigned to Envoy for an independent review. Envoy has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, Envoy received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Anesthesiology and pain Management, and who has met the requirements for the Worker's Compensation Approved Doctor List or who has been granted an exception from the ADL. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to Envoy for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the Envoy reviewer who reviewed this case, based on the medical records provided, is as follows:

Medical Information Reviewed

1. Table of disputed services
2. Denial letters

3. Report 11/19/04, Dr. Hershkowitz
4. Medical records 12/30/04 –4/15/05, Dr. Calodney
5. RS Medical prescriptions and usage reports

History

The patient is a 50-year-old male who was injured in ____, and has had low back and neck pain since that time. An anterior cervical discectomy at C3-4 and C4-5 was performed in January 2004. The patient has also been treated with injections, medications and use of an RS4i muscle stimulator.

Requested Service(s)

Purchase of RS4i muscle stimulator

Decision

I agree with the carrier's decision to deny the requested purchase.

Rationale

Based on the records provided for this review, the patient has experienced some benefit from the use of the unit, but the records do not indicate any specific evidence of decreased medication use, decreased use of medical resources or increased ability to perform activities of daily living. Therefore, purchase of the unit is not reasonable and necessary.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.
