The Texas Medical Foundation (TMF) has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to TMF for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

TMF has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a matched peer with the treating health care professional. This case was reviewed by a health care professional licensed in chiropractic care. TMF's health care professional has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to TMF for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Requested Service(s)

Individual therapy 1 time a week for 6 weeks

Decision

It is determined that there is medical necessity for the individual therapy 1 time a week for 6 weeks to treat this patient's medical condition.

Rationale/Basis for Decision

Medical record documentation indicates the patient was experiencing sleep disturbances, anxiety, decreased interest in past activities, restlessness, depression, and a multitude of other symptoms highly suggestive of the presence of psychological trauma ("post-traumatic stress disorder" (PTSD)). The circumstances surrounding the incident were sufficient to have caused PTSD.

Therefore, individual therapy one time a week for six weeks is medically necessary to treat this patient's medical condition.

This decision by the IRO is deemed to be a TWCC decision and order.
