Medical necessity for preauthorization for chronic behavioral pain management x10 sessions

Determination

PHMO, Inc. has performed an independent review of the proposed care to determine if the adverse determination was appropriate. After review of all medical records received from both parties involved, the PHMO, Inc. physician reviewer has determined to **uphold the denial** on the requested service(s).

Summary of Clinical History

Ms. ____ sustained a work related job injury on ____, while employed with _____.

Clinical Rationale

According to the record received for review, the claimant manifests significant complicating psychiatric/psychological symptoms that have not been appropriately addressed. There doesn't appear to be a formal psychiatric evaluation nor a review for any type of psychopharmacologic treatment. Her mood and anxiety disorders need to be significantly improved before CPMP can be appropriate (or effective). Therefore, medical necessity could not be established.

Clinical Criteria, Utilization Guidelines or other material referenced

This conclusion is supported by the reviewers' clinical experience as a Psychiatrist with over 10 years of experience.

The reviewer for this case is a Medical Doctor licensed by the Texas State Board of Medical Examiners. The reviewer is Board Certified in Psychiatry, and is engaged in the full time practice of psychiatric medicine and pain management.

The review was performed in accordance with Texas Insurance Code §21.58C and the rules of the Texas Workers Compensation Commission. In accordance with the act and the rules, the review is listed on the TWCC's list of approved providers, or has a temporary exemption. The review includes the determination and the clinical rationale to support the determination. Specific utilization review criteria or other treatment guidelines used in this review are referenced.

The reviewer signed a certification attesting that no known conflicts-of-interest exist between the reviewer and any of the providers or other parties associated with this case. The reviewer also attests that the review was performed without any bias for or against the patient, carrier, or other parties associated with this case.
