NOTICE OF INDEPENDENT REVIEW DECISION

RE: MDR Tracking #: M2-06-0574-01
DWC #:
Injured Employee:
Requestor:
Respondent: Travelers Insurance c/o FOL
MAXIMUS Case #: TW06-0009

MAXIMUS has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The MAXIMUS IRO Certificate Number is 5348. The TDI, Division of Workers Compensation (DWC) has assigned this case to MAXIMUS in accordance with Rule §133.308, which allows for a dispute resolution by an IRO.

MAXIMUS has performed an independent review of the proposed care to determine whether or not the adverse determination was appropriate. Relevant medical records, documentation provided by the parties referenced above and other documentation and written information submitted regarding this appeal was reviewed during the performance of this independent review.

This case was reviewed by a practicing physician who is board certified in orthopedic surgery on the MAXIMUS external review panel who is familiar with the condition and treatment options at issue in this appeal. The reviewer has met the requirements for the approved doctor list (ADL) of DWC or has been approved as an exception to the ADL requirement. A certification was signed that the reviewing provider has no known conflicts of interest between that provider and the injured employee, the injured employee's employer, the injured employee's insurance carrier, the utilization review agent, or any of the treating doctors or insurance carrier health care providers who reviewed the case for decision before referral to the IRO, was signed. In addition, the MAXIMUS physician reviewer certified that the review was performed without bias for or against any party in this case.

Clinical History

This case concerns an adult male who had a work related injury on _____. The patient reported that while unloading trailers he felt a sharp pain to the lumbar spine running down the right lower extremity. Diagnoses included back pain secondary to herniated discs, sciatica, degenerative disc disease and lumbar radiculopathy. Evaluation and treatment have included steroid injections, x-rays, MRIs, discogram, medications and work hardening,

Requested Services

Preauthorization for minimal invasive lumbar laminectomy, discectomy L2-3, L4-5 with cage.

Documents and/or information used by the reviewer to reach a decision:

Documents Submitted by Requestor:

None submitted

Documents Submitted by Respondent:

1. Carrier's Position Statement - 1/12/06
2. Review Determination – 9/29/04-12/16/05
3. Healthsouth Records – 3/17/04
4. Orthopedic Records – 2/17/04-11/16/05
5. Diagnostic Study Reports (i.e., MRIs, X-rays, Discogram, Electro-diagnostic studies) – 5/27/03, 6/2/03, 12/12/03, 2/25/04, 4/22/04, 6/2/04, 6/29/04, 4/14/05, 8/1/05, 11/3/05
6. Hospital Records – 6/2/04, 7/14/04, 12/1/04
7. Neurosurgery Records – 7/22/04-8/9/05
8. Laredo Pain Center Records – 12/12/03-5/26/04
9. Progress/SOAP Notes – 11/30/99-2/27/04
10. Physical Medicine and Rehabilitation Records – 5/4/04-9/30/05
11. Independent Medical Evaluation – 1/20/05, 9/21/05

Decision

The Carrier's denial of authorization for the requested services is upheld.

Standard of Review

This MAXIMUS determination is based upon generally accepted standard and medical literature regarding the condition and services/supplies in the appeal.

Rationale/Basis for Decision

The MAXIMUS physician consultant indicated that this patient's MRI examinations did not show significant nerve root compression. The MAXIMUS physician consultant explained that the literature does not support the proposed surgery for treatment of his condition. The MAXIMUS physician consultant noted that the proposed multi-level cage fusion and laminectomy procedure is not indicated or medically necessary based on the pathology in this case. (Gibson, et al. Cochrane Review for Surgery in Lumbar Spondylosis; Spine 2005, van Tuder MW, et al. Outcome of invasive treatment modalities on back pain and sciatica: an evidence-based review. Eur Spine J. 2005 Dec 1.)

Therefore, the MAXIMUS physician consultant concluded that the requested minimal invasive lumbar laminectomy, discectomy L2-3, L4-5 with cage are not medically necessary for treatment of the member's condition.

Your Right To Appeal

If you are unhappy with all or part of this decision, you have the right to appeal the decision. The decision of the Independent Review Organization is binding during the appeal process.

If you are disputing the decision (other than a spinal surgery prospective decision), the appeal must be made directly to a district court in Travis County (see Texas Labor Code §413.031). An appeal to District Court must be filed not later than 30 days after the date on which the decision that is the subject of the appeal is final and appealable. If you are disputing a spinal surgery prospective decision, a request for a hearing must be in writing and it must be received by the Division of Workers' Compensation, Chief Clerk of Proceedings, within ten (10) days of your receipt of this decision.

Sincerely,
MAXIMUS

Lisa Gebbie, MS, RN
State Appeals Department
