TMF Health Quality Institute (TMF) has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Division of Workers' Compensation (DWC) has assigned the above referenced case to TMF for independent review in accordance with DWC Rule §133.308 which allows for medical dispute resolution by an IRO.

TMF has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a matched peer with the treating health care professional. This case was reviewed by a health care professional licensed in Chiropractic Medicine. The TMF physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and the provider, the injured employee, the injured employee's employer, the injured employee's insurance carrier, the utilization review agent, or any of the treating doctors or insurance carrier health care providers who reviewed the case for decision before referral to the IRO. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

This patient sustained a work-related injury on \_\_\_\_ when he fell through a hole while carrying sheets of metal. This resulted in a T-12 compression fracture. The patient has undergone chiropractic as well as psychological evaluations.

Requested Service(s)

Individual psychotherapy once a week for four weeks

Decision

It is determined that Individual psychotherapy once a week for four weeks is medically necessary to treat this patient's condition.

Rationale/Basis for Decision

The psychological evaluation fully substantiates that the proposed services fulfill statutory requirements<sup>1</sup> for medical necessity since the patient would likely obtain relief, promotion of recovery would likely be accomplished, and there would likely be an enhancement of the employee's ability to return to employment.

This decision by the IRO is deemed to be a DWC decision and order.
