IRO Certificate #: IRO4326

TMF Health Quality Institute (TMF) has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Division of Workers' Compensation (DWC) has assigned the above referenced case to TMF for independent review in accordance with DWC Rule §133.308 which allows for medical dispute resolution by an IRO.

TMF has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a TMF physician reviewer who is board certified in Orthopedic Surgery, by the American Board of Orthopaedic Surgery, Inc., licensed by the Texas State Board of Medical Examiners (TSBME) in 1969, and who provides health care to injured workers. This is the same specialty as the treating physician. The TMF physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and the provider, the injured employee, the injured employee's employer, the injured employee's insurance carrier, the utilization review agent, or any of the treating doctors or insurance carrier health care providers who reviewed the case for decision before referral to the IRO. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

This patient sustained a work related injury on ___ when he was lifting a bag of feed and twisted to the left resulting in low back pain with radiation to the hip. The patient has been treated with medication, physical therapy, and nerve block.

Requested Service(s)

360 lumbar fusion at L3-4 (63090.62, 22558, 22885, 20931)

Decision

It is determined that the 360 lumbar fusion at L3-4 (63090.62, 22558, 22885, 20931) is not medically necessary to treat this patient's condition.

Rationale/Basis for Decision

There is no affirmative documentation presented for review that would suggest that this surgical procedure would be indicated based on the generic indications published in primary and secondary medical literature. The generic indications include fracture/dislocation, spondylolysis with significant spondylolisthesis, structural instability, and/or compressive neuropathy that could produce instability and require surgical decompression. None of these conditions are documented as being present.

This decision by the IRO is deemed to be a DWC decision and order.

YOUR RIGHT TO APPEAL

If you are unhappy with all or part of this decision, you have the right to appeal the decision. The decision of the Independent Review Organization is binding during the appeal process.

If you are disputing the decision (other than a spinal surgery prospective decision), the appeal must be made directly to a district court in Travis County (see Texas Labor Code § 413.031). An appeal to District Court must be filed not later than 30 days after the date on which the decision that is the subject of the appeal is final and appealable. If you are disputing a spinal surgery prospective decision, a request for a hearing must be in writing and it must be received by the Division of Workers' Compensation, Chief Clerk of Proceedings, within ten (10) days of your receipt of this decision.

This decision is deemed received by you 5 (five) days after it was mailed or the date of fax (28 Tex. Admin. Code 102.5(d)). A request for hearing and a **copy of this decision** must be sent to: Chief Clerk of Proceedings/Appeals Clerk, Texas Department of Insurance, Division of Workers' Compensation, P.O. Box 17787, Austin, Texas, 78744, Fax: 512-804-4011.

The party appealing this decision shall deliver a copy of its written request for a hearing to all other parties involved in this dispute.

Sincerely,

Gordon B. Strom, Jr., MD
Director of Medical Assessment
