Notice of Determination

MDR TRACKING NUMBER: M2-06-0415-01
RE: Independent review for ____

The independent review for the patient named above has been completed.

- Parker Healthcare Management received notification of independent review by UPS on 12.07.05.
- Faxed request for provider records made on 12.07.05.
- The case was assigned to a reviewer on 12.19.05.
- The reviewer rendered a determination on 1.3.05.
- The Notice of Determination was sent on 1.4.05.

The findings of the independent review are as follows:

Questions for Review

Medical necessity of the proposed 1) anterior approach:L5-S1 anterior Lumbar interbody fusion with infix cages, bone morphogenic protein&bowtie anterior lumbar interbody fusion plates. 2) Posterior approach: L5-S1 minimally invasive tubular retraction approach, postero lateral fusion with sextant-single level pedicle rods

Determination

PHMO, Inc. has performed an independent review of the proposed care to determine if the adverse determination was appropriate. After review of all medical records received from both parties involved, the PHMO, Inc. physician reviewer has determined to **overturn the denial** on the requested service(s).

Summary of Clinical History

Ms. ____ sustained a work related on the job injury on ____, while employed with

Clinical Rationale

This patient has a single level disc disorder at L5-S1 that has failed to respond to long term care including multiple injections and other non-operative care. She is only 29 years of age. A disc excision alone does not appear likely to resolve her lumbar symptoms. No discogram had been completed but given the single level disc disorder, discography would appear superfluous. She is a smoker. Despite the reports of successful fusion with BMP in smokers, cessation of smoking will further enhance the potential for a healed fusion surgery.

Thus, the proposed surgery does appear to be an appropriate intervention given the time from injury (almost 2 ½ years), extent of treatment already, the single level disc disorder and the literature supporting this surgical intervention for a single level discogenic pain syndrome.

Clinical Criteria, Utilization Guidelines or other material referenced

- **Spine Instructional Course Lectures 2003 American Academy of Ortho Surgeons.**
-

The reviewer for this case is a Medical Doctor licensed by the Texas State Board of Medical Examiners. The reviewer is a diplomate of the American Board of Orthopedic Surgery, and is engaged in the full time practice of medicine.

The review was performed in accordance with Texas Insurance Code 21.58C and the rules of Texas Department of Insurance /Division of Workers' Compensation. In accordance with the act and the rules, the review is listed on the DWC's list of approved providers or has a temporary exemption. The review includes the determination and the clinical rationale to support the determination. Specific utilization review criteria or other treatment guidelines used in this review are referenced.

The reviewer signed a certification attesting that no known conflicts-of-interest exist between the reviewer and the treating and/or referring provider, the injured employee, the injured employee's employer, the injured employee's insurance carrier, the utilization review agent, or any of the treating doctors or insurance carrier health care providers who reviewed the case for decision before referral to the IRO. The reviewer also attests that the review was performed without any bias for or against the patient, carrier, or other parties associated with this case.

Your Right To Appeal

If you are unhappy with all or part of this decision, you have the right to appeal the decision. The decision of the Independent Review Organization is binding during the appeal process.

If you are disputing the decision (other than a spinal surgery prospective decision), the appeal must be made directly to a district court in Travis County (see Texas Labor Code §413.031). An appeal to District Court must be filed not later than 30 days after the date on which the decision that is the subject of the appeal is final and appealable.

If you are disputing a spinal surgery prospective decision, a request for a hearing must be in writing and it must be received by the Division of Workers' Compensation, Chief Clerk of Proceedings, within ten (10) days of your receipt of this decision. The address for the Chief Clerk of Proceedings would be: P.O. Box 17787, Austin, Texas, 78744.

I hereby verify that a copy of this Findings and Decision was faxed to the Texas Department of Insurance /Division of Workers Compensation, the requestor (if different from the patient) and the respondent. I hereby verify that a copy of this Findings and Decision was mailed to the injured worker (the requestor) applicable to Commission Rule 102.5 this 4th day of January 2006.
