## Notice of Determination

MDR TRACKING NUMBER: M2-06-1361-01  
RE: Independent review for \_\_\_\_

The independent review for the patient named above has been completed.

- Parker Healthcare Management received notification of independent review on 5.19.06.
- Faxed request for provider records made on 5.19.06.
- TDI-DWC issued an Order for Payment on 6.5.06.
- The case was assigned to a reviewer on 6.23.06.
- The reviewer rendered a determination on 7.5.06.
- The Notice of Determination was sent on 7.6.06.

The findings of the independent review are as follows:

### Questions for Review

Medical necessity of Lumbar laminectomy with fusion and instrumentation L4-5 and purchase of a TSLO back brace

### Determination

PHMO, Inc. has performed an independent review of the proposed care to determine if the adverse determination was appropriate. After review of all medical records received from both parties involved, the PHMO, Inc. physician reviewer has determined to **uphold the denial** on the requested service(s).

### Summary of Clinical History

Mr. \_\_\_\_ sustained a work related on the job injury on \_\_\_\_, while employed with \_\_\_\_\_.

### Clinical Rationale

This patient has a disc herniation at L4-5 that is lateralized somewhat to the left with radicular symptoms and findings to the left lower extremity. He is a smoker, which is a relative contradiction to a fusion surgery. Moreover, the results of fusion surgery for discogenic pain have not been shown to be superior to the use of an education and focused rehab program.

Thus, this request for a fusion surgery at L4-5 and purchase of the TSLO back brace are not approved as medically necessary.
