## Notice of Determination

MDR TRACKING NUMBER: M2-06-1471-01  
RE: Independent review for \_\_\_\_

The independent review for the patient named above has been completed.

- Parker Healthcare Management received notification of independent review on 5.30.06.
- Faxed request for provider records made on 5.31.06.
- The case was assigned to a reviewer on 6.16.06.
- The reviewer rendered a determination on 6.29.06.
- The Notice of Determination was sent on 6.29.06.

The findings of the independent review are as follows:

### Questions for Review

Medical necessity of right knee arthroscopy and correction internal derangement

### Determination

PHMO, Inc. has performed an independent review of the proposed care to determine if the adverse determination was appropriate. After review of all medical records received from both parties involved, the PHMO, Inc. physician reviewer has determined to **uphold the denial** on the requested service(s).

### Summary of Clinical History

Ms. \_\_\_\_ sustained a work related on the job injury on \_\_\_\_, while employed with the \_\_\_\_.

### Clinical Rationale

Per the records, the patient made a decision to forgo having surgical intervention. The patient was treated with non-operative rehab and demonstrated significant improvement in all parameters that were measured. The patient was evaluated by the surgeon and on 06.02.2006, the patient elected against surgery. The patient had pain and essentially no internal derangement was demonstrated.

The indication for non-surgical intervention is the absence of locking and instability and the patient has achieved a gradual return to activity. However, should the patient change to internal derangement symptoms which would include locking and instability, surgery would then be indicated if the patient agreed.
