IRO Certificate #: IRO4326

TMF Health Quality Institute (TMF) has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Division of Workers' Compensation (DWC) has assigned the above referenced case to TMF for independent review in accordance with DWC Rule §133.308 which allows for medical dispute resolution by an IRO.

TMF has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a TMF physician reviewer who is board certified in Family Practice, by the American Board of Family Practice, Inc., licensed by the Texas State Board of Medical Examiners (TSBME) in 1997, and who provides health care to injured workers. This is the same specialty as the treating physician. The TMF physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and the provider, the injured employee, the injured employee's employer, the injured employee's insurance carrier, the utilization review agent, or any of the treating doctors or insurance carrier health care providers who reviewed the case for decision before referral to the IRO. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Decision

It is determined that the PT 3 X wk X 4 weeks is medically necessary to treat this patient's condition.

Rationale/Basis for Decision

Based on the medical record documentation, physical therapy is the most appropriate treatment in this case prior to any other pain management and/or injections.

This decision by the IRO is deemed to be a DWC decision and order.
