Questions for Review

Pre-Auth Request: Post Operative Right Shoulder PT 3 x wk x 4 wks

Determination

PHMO, Inc. has performed an independent review of the proposed care to determine if the adverse determination was appropriate. After review of all medical records received from both parties involved, the PHMO, Inc. physician reviewer has determined to **uphold the denial** on the requested service(s).

Summary of Clinical History

The claimant was injured as a result of a work related injury. The claimant tripped on some carpet and fell. The injury sustained is documented as being the right shoulder. Surgery was performed on 8-24-06. The injury was to the rotator cuff and involved a full thickness tear of the supraspinatus. Post surgical rehabilitation was provided.

Clinical Rationale

The denial was based upon documentation that demonstrates that the claimant already had 32 sessions of post surgical rehab that were supervised. The claimant received surgery with no documentation of complication. The claimant received an adequate amount of post surgical care as demonstrated by the ODG and ACOEM guidelines. There is no documentation provided that clearly demonstrates that continued care in a supervised setting is going to have a clear impact in regards to further recovery of the claimant's condition. The most recent progress notes demonstrate very little improvement and it appears that the patient has reached maximum therapeutic benefit from the post surgical rehabilitation already given.

ODG Guidelines

The reviewer for this case is a doctor of chiropractic peer matched with the provider that rendered the care in dispute. The reviewer is engaged in the practice of chiropractic on a full-time basis.

The review was performed in accordance with Texas Insurance Code 21.58C and the rules of Texas Department of Insurance /Division of Workers' Compensation. In accordance with the act and the rules, the review is listed on the DWC's list of approved providers or has a temporary exemption. The review includes the determination and the clinical rationale to support the determination. Specific utilization review criteria or other treatment guidelines used in this review are referenced.

The reviewer signed a certification attesting that no known conflicts-of-interest exist between the reviewer and the treating and/or referring provider, the injured employee, the injured employee's employer, the injured employee's insurance carrier, the utilization review agent, or any of the treating doctors or insurance carrier health care providers who reviewed the case for decision before referral to the IRO. The reviewer also attests that the review was performed without any bias for or against the patient, carrier, or other parties associated with this case.

Your Right To Appeal

If you are unhappy with all or part of this decision, you have the right to appeal the decision. The decision of the Independent Review Organization is binding during the appeal process.

If you are disputing the decision (other than a spinal surgery prospective decision), the appeal must be made directly to a district court in Travis County (see Texas Labor Code §413.031). An appeal to District Court must be filed not later than 30 days after the date on which the decision that is the subject of the appeal is final and appealable.

If you are disputing a spinal surgery prospective decision, a request for a hearing must be in writing and it must be received by the Division of Workers' Compensation, Chief Clerk of Proceedings, within ten (10) days of your receipt of this decision. The address for the Chief Clerk of Proceedings would be: P.O. Box 17787, Austin, Texas, 78744.

I hereby verify that a copy of this Findings and Decision was faxed to the Texas Department of Insurance /Division of Workers Compensation, the requestor (if different from the patient) and the respondent. I hereby verify that a copy of this Findings and Decision was mailed to the injured worker (the requestor) applicable to Commission Rule 102.5 this 23th day of January, 2007.
