The findings of the independent review are as follows:

Questions for Review

Medical necessity of proposed intrathecal pain pump trial

Determination

PHMO, Inc. has performed an independent review of the proposed care to determine if the adverse determination was appropriate. After review of all medical records received from both parties involved, the PHMO, Inc. physician reviewer has determined to **overturn the denial** on the requested service(s).

Summary of Clinical History

This individual has had chronic intractable pain of the neck and back and has been treated at the pain clinic and received cervical facet injections and multiple treatments and is on high dose narcotic analgesia including Avinza 480 mg daily, which does not control his pain but does reduce his symptoms to some degree and breakthrough pain control with Percocet 10/325 mg.

Clinical Rationale

The patient is receiving high dose medications and there is a good chance that pain management with intrathecal morphine could reduce the pain requirements in terms of oral medications and pain.

There was concern about psychological set with the previous history of depression and anxiety. The anxiety seems to be related to the underlying pain. If the pain is controlled, the anxiety can be controlled. There was nothing than indicated the patient had a psychological barrier to improvement and the psychological assessment was not inconsistent with approval.

The reviewer for this case is a Medical Doctor licensed by the Texas State Board of Medical Examiners. The reviewer specializes in Physical medicine and Rehabilitation, and is engaged in the full time practice of medicine.

The review was performed in accordance with Texas Insurance Code 21.58C and the rules of Texas Department of Insurance /Division of Workers' Compensation. In accordance with the act and the rules, the review is listed on the DWC's list of approved providers or has a temporary exemption. The review includes the determination and the clinical rationale to support the determination. Specific utilization review criteria or other treatment guidelines used in this review are referenced.

The reviewer signed a certification attesting that no known conflicts-of-interest exist between the reviewer and the treating and/or referring provider, the injured employee, the injured employee's employer, the injured employee's insurance carrier, the utilization review agent, or any of the treating doctors or insurance carrier health care providers who reviewed the case for decision before referral to the IRO. The reviewer also attests that the review was performed without any bias for or against the patient, carrier, or other parties associated with this case.

Your Right To Appeal

If you are unhappy with all or part of this decision, you have the right to appeal the decision. The decision of the Independent Review Organization is binding during the appeal process.

If you are disputing the decision (other than a spinal surgery prospective decision), the appeal must be made directly to a district court in Travis County (see Texas Labor Code §413.031). An appeal to District Court must be filed not later than 30 days after the date on which the decision that is the subject of the appeal is final and appealable.

If you are disputing a spinal surgery prospective decision, a request for a hearing must be in writing and it must be received by the Division of Workers' Compensation, Chief Clerk of Proceedings, within ten (10) days of your receipt of this decision. The address for the Chief Clerk of Proceedings would be: P.O. Box 17787, Austin, Texas, 78744.

I hereby verify that a copy of this Findings and Decision was faxed to the Texas Department of Insurance /Division of Workers Compensation, the requestor (if different from the patient) and the respondent. I hereby verify that a copy of this Findings and Decision was mailed to the injured worker (the requestor) applicable to Commission Rule 102.5 this 19th day of February, 2007.
