

**SUBCHAPTER C. Assessment of Maintenance Taxes and Fees**  
**28 TAC §1.414**

**1. INTRODUCTION.** The Commissioner of Insurance (Commissioner) adopts amendments to §1.414, concerning the 2012 assessment of maintenance taxes and fees imposed by the Texas Insurance Code. The amendments are adopted without changes to the proposed text published in the December 2, 2011 issue of the *Texas Register* (36 TexReg 8157).

**2. REASONED JUSTIFICATION.** The amendments are necessary to adjust the rates of assessment for maintenance taxes and fees for 2012 on the basis of gross premium receipts for calendar year 2011 following the methodology described below. Section 1.414 includes rates of assessment to be applied to life, accident, and health insurance; motor vehicle insurance; casualty insurance and fidelity, guaranty, and surety bonds; fire insurance and allied lines, including inland marine; workers' compensation insurance; workers' compensation self-insured groups; title insurance; health maintenance organizations (HMOs); third party administrators; nonprofit legal services corporations issuing prepaid legal services contracts; and workers' compensation certified self-insurers.

The following paragraphs provide an explanation of the methodology used to determine adopted rates of assessment for maintenance taxes and fees for 2012.

In general, the Department's 2012 revenue need (the amount that must be funded by maintenance taxes or fees, examination overhead assessments, and

premium finance examination assessments) is determined by calculating the Department's total cost need, and subtracting from that number funds resulting from fee revenue and funds remaining from fiscal year 2011.

To determine its total cost need, the Department combined costs from the following: (i) appropriations set out in Chapter 1355 (H.B. 1), Acts of the 82nd Legislature, Regular Session, 2011 (the General Appropriations Act), which come from two funds, the General Revenue Dedicated - Texas Department of Insurance Operating Account No. 0036 (Account No. 0036) and the General Revenue Fund - Insurance Companies Maintenance Tax and Insurance Department Fees; (ii) an estimate of other costs statutorily required to be paid from those two funds, such as fringe benefits and statewide allocated costs; (iii) an estimate of the cash amount necessary to finance both funds from the end of the 2012 fiscal year until the next assessment collection period in 2013; and (iv) costs associated with implementation of Senate Bill 1291, 82nd Legislature, Regular Session, effective September 1, 2011 (SB 1291), which requires the creation of an account with the Texas Treasury Safekeeping Trust Company to be used exclusively to pay examination costs associated with salary, travel, or other personnel expenses.

To complete the calculation of revenue need, the Department reduced the total cost need by subtracting the estimated ending fund balance for fiscal year 2011 (August 31, 2011) and estimated fee revenue to be collected in fiscal year 2012. The resulting balance is the estimated revenue need that must be supported during the 2012 fiscal

year by the following funding sources: the maintenance taxes or fees, exam overhead assessments, and premium finance exam assessments.

The Department determined how to allocate the revenue need to be attributed to each funding source using the following method:

For each section within the Department that provides services directly to the public or the insurance industry, the Department allocated the costs for providing those direct services on a percentage basis to each funding source, such as the maintenance tax or fee line, the premium finance assessment, the examination assessment, or another funding source. The Department applied these percentages to each section's annual budget to determine the total direct cost to each funding source. The Department calculated a percentage for each funding source by dividing the total directly allocated to each funding source by the total of the direct cost. The Department used this percentage to allocate administrative support costs to each funding source. Examples of administrative support costs include services provided by human resources, accounting, budget, the Commissioner's administration, and information technology. The Department calculated the total of direct costs and administrative support costs for each funding source.

The General Appropriations Act includes appropriations to state agencies other than the Department that must be funded by Account No. 0036 and the General Revenue Fund - Insurance Companies Maintenance Tax and Insurance Department Fees. The Department adds these costs to the sum of the direct costs and the administrative support costs for the appropriate funding source when possible. For

instance, the Department allocates an appropriation to the Texas Department of Transportation for the crash information records system to the motor vehicle maintenance tax. The Department includes costs for other agencies that cannot be directly allocated to a funding source to the administrative support costs. For instance, the Department includes an appropriation to the Texas Facilities Commission for building support costs in administrative support costs.

The Department determines the revenue need for each maintenance tax or fee line by dividing the total costs need for each maintenance tax line by the total of the revenue needs for all maintenance taxes and assessments. The Department multiplies the calculated percentage for each line by the total revenue need for maintenance taxes and assessments. The resulting amount is the revenue need for each maintenance tax line. The Department adjusts the revenue need by subtracting the estimated amount of fee and reimbursement revenue collected for each maintenance tax or fee line from the total of the revenue need for each maintenance tax or fee line. The Department further adjusts the resulting revenue need as described below.

The costs allocated to the life, accident, and health maintenance tax exceed the amount of revenue that can be collected at the maximum rate set by statute. The Department allocates the difference between the amount estimated to be collected at the maximum rate and the costs allocated to the life, accident, and health maintenance tax to the other maintenance tax or fee lines. The Department allocates the life, accident, and health shortfall based on each of the other maintenance tax or fee lines'

proportionate share of the total costs for maintenance taxes or fee. The Department uses the adjusted revenue need as the basis for calculating the maintenance tax rates.

For each line of insurance, the Department divides the adjusted revenue need by the estimated premium volume or assessment base to determine the rate of assessment for each maintenance tax or fee.

The following paragraphs provide an explanation of the methodology to develop the adopted rates for the Division of Workers' Compensation (DWC) and the Office of Injured Employee Counsel (OIEC).

The Department utilized the following methodology to develop the rates for the DWC and the OIEC. To determine the revenue need, the Department considered the following factors applicable to costs for DWC and OIEC: (i) the appropriations in the General Appropriations Act for fiscal year 2012 from Account No. 0036; (ii) estimated other costs statutorily required to be paid from Account No. 0036, such as fringe benefits and statewide allocated costs; and (iii) an estimated cash amount to finance Account No. 0036 costs from the end of the 2012 fiscal year until the next assessment collection period in 2013. The Department adds these three factors to determine the total revenue need.

The Department reduced the total revenue need by subtracting the estimated fund balance at August 31, 2011 and the DWC fee and reimbursement revenue estimate to be collected and deposited to the Account No. 0036 in fiscal year 2012. The resulting balance is the estimated revenue need from maintenance taxes. The Department calculated the maintenance tax rate by dividing the estimated revenue need

by the combined estimated workers' compensation premium volume and the certified self-insurers' liabilities plus the amount of expense incurred for administration of self insurance.

The following paragraphs provide an explanation of the methodology to develop the adopted rates for the workers' compensation research and evaluation group.

To determine the revenue need, the Department considered the following factors that are applicable to the workers' compensation and research and evaluation group: (i) the appropriations in the General Appropriations Act for fiscal year 2012 from Account No. 0036 and from General Revenue Fund - Insurance Companies Maintenance Tax and Insurance Department Fees; (ii) estimated other costs statutorily required to be paid from these two funds, such as fringe benefits and statewide allocated costs; and (iii) an estimated cash amount to finance costs from these two funds from the end of the 2012 fiscal year until the next assessment collection period in 2013. The Department adds these three factors to determine the total revenue need.

The Department reduced the total revenue need by subtracting the estimated fund balance at August 31, 2011. The resulting balance is the estimated revenue need from maintenance taxes. The Department calculated the maintenance tax rate by dividing the estimated revenue need by the estimated assessment base for 2012.

The following paragraphs provide a brief summary and analysis of the reasons for the adopted amendments.

The amendment to the section heading is necessary to reflect the year for which the proposed assessment of maintenance taxes and fees is applicable. The

amendments in subsections (a), (b), and (c), and relettered (f) and (h) are necessary to reflect the appropriate year for accurate application of the section.

The amendments in subsections (a) and (c) are grammatical in nature; they are necessary to revise each sentence to be written in the active voice.

The amendments in subsection (a) are necessary to reflect the addition of a new paragraph, and the amendments in relettered (h) are necessary to reflect the addition of two new subsections. Additionally, amendments are necessary to reletter subsections (d), (e), and (f) as (f), (g), and (h) to reflect addition of the two new subsections.

The amendments in subsections (a)(1) – (5), (7), (8), and (9); (c)(1) – (3); and (f) are necessary to update rates to reflect the methodology the Department has developed for 2012, which is described below.

Amendments are necessary throughout the text of the section to change the percent symbol to the word “percent.” This revision is necessary to update the section to follow current Department rule drafting style. An amendment inserting the word “the” before “Labor Code” in relettered subsection (f) is also necessary to follow current Department rule drafting style.

New paragraph (6) of subsection (a) and new subsections (d) and (e) are necessary to implement House Bill 7, enacted by Acts 2005, 79th Legislature, ch. 265, eff. Sept. 1, 2005 (HB 7). HB 7 amended the Labor Code Chapter 405 to establish the Workers' Compensation Research and Evaluation Group. Section 405.003 provides that the Workers' Compensation Research and Evaluation Group's activities must be funded through the assessment of a maintenance tax collected annually from all

insurance carriers and self-insurance groups that hold certificates of approval under Chapter 407A.

Amendments to relettered subsection (h) are necessary to update the address for the Comptroller to which insurers, HMOs, third party administrators, nonprofit legal services corporations issuing prepaid legal services contracts, and workers' compensation certified self-insurers can submit the maintenance taxes and fees required by §1.414.

**3. HOW THE SECTION WILL FUNCTION.** Section 1.414 provides the rates of assessment for maintenance taxes and fees for 2012 to be applied to life, accident, and health insurance; motor vehicle insurance; casualty insurance and fidelity, guaranty, and surety bonds; fire insurance and allied lines, including inland marine; workers' compensation insurance; workers' compensation self-insured groups; title insurance; health maintenance organizations; third party administrators; nonprofit legal services corporations issuing prepaid legal services contracts; and workers' compensation certified self-insurers.

Additionally, the Labor Code §403.002 states that a workers' compensation insurance company is taxed at the rate established under the Labor Code §403.003, and that the tax shall be collected in the manner provided for collection of other taxes on gross premiums from a workers' compensation insurance company as provided in the

Insurance Code Chapter 255. Finally, the Labor Code §403.002 states that each certified self-insurer shall pay a fee and maintenance taxes as provided by the Labor Code Chapter 407 Subchapter F.

The Labor Code §403.003 requires the Commissioner of Insurance to set and certify to the Comptroller the rate of maintenance tax assessment, taking into account: (i) any expenditure projected as necessary for the division and the office of injured employee counsel to administer the Texas Workers' Compensation Act during the fiscal year for which the rate of assessment is set and reimburse the general revenue fund as provided by the Insurance Code §201.052; (ii) projected employee benefits paid from general revenues; (iii) a surplus or deficit produced by the tax in the preceding year; (iv) revenue recovered from other sources, including reappropriated receipts, grants, payments, fees, gifts, and penalties recovered under the Texas Workers' Compensation Act; and (v) expenditures projected as necessary to support the prosecution of workers' compensation insurance fraud. The Labor Code §403.003 also provides that in setting the rate of assessment, the Commissioner of Insurance may not consider revenue or expenditures related to the State Office of Risk Management, the workers' compensation research functions of the Department under the Labor Code Chapter 405, or any other revenue or expenditure excluded from consideration by law.

The Labor Code §403.005 provides that the Commissioner of Insurance shall annually adjust the rate of assessment of the maintenance tax imposed under §403.003 so that the tax imposed that year, together with any unexpended funds produced by the tax, produces the amount the Commissioner of Insurance determines is necessary to

pay the expenses of administering the Texas Workers' Compensation Act. The Labor Code §405.003(a) – (c) establishes a maintenance tax on insurance carriers and self-insurance groups to fund the workers' compensation research and evaluation group, it provides for the Department to set the rate of the maintenance tax based on the expenditures authorized and the receipts anticipated in legislative appropriations, and it provides that the tax is in addition to all other taxes imposed on insurance carriers for workers' compensation purposes.

The Labor Code §407.103 imposes a maintenance tax on each workers' compensation certified self-insurer for the administration of the Division of Workers' Compensation and the Office of Injured Employee Counsel and to support the prosecution of workers' compensation insurance fraud in Texas. The Labor Code §407.103 also provides that not more than two percent of the total tax base of all certified self-insurers, as computed under subsection (b) of the section, may be assessed for the maintenance tax established under Labor Code §407.103. The Labor Code §407.103 also provides that to determine the tax base of a certified self-insurer for purposes of the Labor Code Chapter 407, the Department shall multiply the amount of the certified self-insurer's liabilities for workers' compensation claims incurred in the previous year, including claims incurred but not reported, plus the amount of expense incurred by the certified self-insurer in the previous year for administration of self-insurance, including legal costs, by 1.02. The Labor Code §407.103 also provides that the tax liability of a certified self-insurer under the section is the tax base computed under subsection (b) of the section multiplied by the rate assessed workers'

compensation insurance companies under the Labor Code §403.002 and §403.003. Finally, the Labor Code §407.103 provides that in setting the rate of maintenance tax assessment for insurance companies, the Commissioner of Insurance may not consider revenue or expenditures related to the operation of the self-insurer program under the Labor Code Chapter 407.

Section 407.104(b) provides that the Department shall compute the fee and taxes of a certified self-insurer and notify the certified self-insurer of the amounts due. Section 407.104(b) also provides that a certified self-insurer shall remit the taxes and fees to the Division of Workers' Compensation.

The Labor Code §407A.301 imposes a self-insurance group maintenance tax on each workers' compensation self-insurance group based on gross premium for the group's retention. The Labor Code §407A.301 provides that the self-insurance group maintenance tax is to pay for the administration of the Division of Workers' Compensation, the prosecution of workers' compensation insurance fraud in Texas, the research functions of the Department under Labor Code Chapter 405, and the administration of the Office of Injured Employee Counsel under Labor Code Chapter 404. The Labor Code §407A.301 also provides that the tax liability of a group under subsection (a)(1) and (2) of the section is based on gross premium for the group's retention multiplied by the rate assessed insurance carriers under the Labor Code §§403.002 and 403.003. The Labor Code §407A.301 also provides that the tax liability of a group under subsection (a)(3) of the section is based on gross premium for the group's retention multiplied by the rate assessed insurance carriers under the Labor

Code §405.003. Additionally, the Labor Code §407A.301 provides that the tax under the section does not apply to premium collected by the group for excess insurance. Finally, the Labor Code §407A.301 provides that the tax under the section shall be collected by the Comptroller as provided by the Insurance Code Chapter 255 and the Insurance Code §201.051.

The Labor Code §407A.302 requires each workers' compensation self-insurance group to pay the maintenance tax imposed under the Insurance Code Chapter 255, for the administrative costs incurred by the Department in implementing the Labor Code Chapter 407A. The Labor Code §407A.302 provides that the tax liability of a workers' compensation self-insurance group under the section is based on gross premium for the group's retention and does not include premium collected by the group for excess insurance. The Labor Code §407A.302 also provides that the maintenance tax assessed under the section is subject to the Insurance Code Chapter 255, and that it shall be collected by the Comptroller in the manner provided by the Insurance Code Chapter 255.

The Insurance Code §36.001 provides that the Commissioner may adopt any rules necessary and appropriate to implement the powers and duties of the Texas Department of Insurance under the Insurance Code and other laws of this state.
