

TEXAS DEPARTMENT OF INSURANCE, DIVISION OF WORKERS' COMPENSATION
SYSTEM MONITORING AND OVERSIGHT
AUDIT PLAN
FISCAL YEAR ENDING 08/31/18

OBJECTIVES

For fiscal year 2018, it is the goal of System Monitoring and Oversight to improve system performance in the following key areas:

- timely and accurate benefit delivery;
- timely medical reimbursement; and
- accurate reporting of electronic data to the Texas Department of Insurance, Division of Workers' Compensation (TDI-DWC).

To obtain these objectives, performance audits will be conducted on select system participants. The Texas Labor Code (TLC) authorizes the TDI-DWC to conduct performance audits of participants in the Texas Workers' Compensation System. The TDI-DWC is specifically directed in TLC §402.075 to focus its regulatory oversight on insurance carriers and health care providers identified as poor performers in the Performance-Based Oversight (PBO) program. Therefore, the insurance carriers selected for fiscal year 2018 audits are those identified either as poor performers in the PBO program or through detected compliance issues. Detailed information regarding PBO can be found at <http://www.tdi.texas.gov/wc/pbo/pbo.html>.

This audit plan identifies the issues to be reviewed during the fiscal year ending August 31, 2018, and describes the scope and methodology related to each audit type. However, this audit plan is subject to change; the TDI-DWC may identify compliance areas of concern, audit risk, or data availability issues and adjust audit issue, auditee, objective, scope, and/or methodology, as necessary.

AUDIT SCOPE AND METHODOLOGY

Accuracy of Lifetime Income/Death Benefit Payments and Claim Data

The Accuracy of Lifetime Income/Death Benefit Payments and Claims Data review will determine if insurance carriers accurately paid Lifetime Income and Death benefits and accurately reported claim data to the TDI-DWC. The review will consist of determining if insurance carriers: 1) accurately calculated average weekly wage (AWW); 2) accurately calculated and paid death benefits; 3) made required adjustments to benefits; and 4) timely and accurately reported claim data to the TDI-DWC. The audit samples will consist of randomly selected records drawn from the TDI-DWC database of claim information submitted to the TDI-DWC by insurance carriers.

The sample data will be drawn from claims for injuries occurring since September 01, 2005. For each claim reviewed, the TDI-DWC will require the insurance carriers to submit the wage statement, indemnity payment records, and adjuster notes. The records will be reviewed to determine if the payment amounts and data reporting were accurate.

Timeliness of Medical Bill Processing and Accuracy of Medical Data

The Timeliness of Medical Bill Processing and Accuracy of Medical Data review will determine if insurance carriers timely processed medical bills and accurately reported medical bill/payment data to the TDI-DWC. The review will consist of determining if the insurance carriers paid or denied initial medical bills within 45 days of receipt and accurately reported the following medical bill/payment data elements to the TDI-DWC:

1. Rendering Line Provider NPI Number (EDI DN592-Unique national provider ID of the rendering provider at the line level)
2. Rendering Line Provider State License Number (EDI DN599-License number issued by a jurisdiction that permits the rendering line provider to practice in that state)
3. Referring Provider Last/Group Name (EDI DN690-Provider referring claimant for care)
4. Referring Provider State License Number (EDI DN695-License number issued by a jurisdiction that permits the referring provider to practice in that state)
5. Service Facility Postal Code (EDI DN688-Postal code of facility's mailing address)
6. ANSI Reason Adjustment Code 1 (EDI DN732-Service adjustment reason code)
7. Date Bill Received (EDI DN511 – Date Insurer Received Bill)
8. Date Paid or Denied (EDI DN512 – Date Insurer Paid Bill)

The audit samples will consist of randomly selected records drawn from the medical bill information submitted to the TDI-DWC by insurance carriers.

The sample data will be drawn from billing lines submitted to the TDI-DWC during the period of September 01, 2017 through November 30, 2017 or December 01, 2017 through February 28, 2018, depending on the date of audit initiation. For each billing line reviewed, the TDI-DWC will require the insurance carriers to submit the medical bills, Explanation of Benefit Statements, and payment detail. The records will be reviewed to determine if each medical bill was timely processed and if the data elements were accurately reported.

Timeliness of Initial Temporary Income Benefits Payment; Timeliness of Reporting Initial Payment Data; and Accuracy of Initial Payment Data

Payment Data; and Accuracy of Initial Payment Data review will determine if insurance carriers: 1) initiated the first TIB payment timely; 2) timely reported initial payment data to the TDI-DWC; and 3) accurately reported the following initial payment data elements to the TDI-DWC:

1. First Day of Disability (EDI DN56 – Date Disability Began)
2. Date of Written Notice of Injury (EDI DN41 – Date Reported to Claims Administrator)
3. Date of Initial Payment (EDI DN03 – Maintenance Type Code Date)
4. TIB From Date (EDI DN88 – Payment/Adjustment Start Date)
5. TIB End Date (EDI DN89 – Payment/Adjustment End Date)

The audit samples will consist of randomly selected records drawn from the TDI-DWC database of claim information submitted to the TDI-DWC by insurance carriers.

The sample data will be drawn from claims for which an initial payment of TIBs was issued during the period of either July 01, 2017 through September 30, 2017 or October 01, 2017 through December 31, 2017. For each claim reviewed, the TDI-DWC will require the insurance carriers to submit the DWC Form-1, Employers First Report of Injury or Illness; Plain Language Notice 2, Notification of First Temporary Income Benefit Payment; adjuster/claim notes; medical reports; and initial TIB payment detail. The records will be reviewed to determine if each first TIB payment was issued timely and if the initial payment data elements were timely and accurately reported.
