**FORM 5**  
**THE TEXAS TITLE INSURANCE LOSS DEVELOPMENT EXHIBIT**  
**Calendar Year Ended December 31, 2018**

**General Instructions:**

1. The purpose of this exhibit is to provide data regarding the development of Texas title insurance policy losses.
2. Include amounts paid or reserved on policies with inception dates before January 1, 2009, on lines 1 through 3.
3. Reported losses must be net of recoupment.
4. Do not include loss adjustment expenses.

**Specific Instructions:**

The <Policy Year(s)> column is the year the title policy was issued.

For each policy year, there is a line to report <Paid Losses> and a line to report <Case Basis Reserves>. The third line of each year, <Incurred (1+2)>, is the sum of <Paid Losses> and <Case Basis Reserves>.

Columns labeled (A) through (J) represent ongoing evaluation years. Each column reports the cumulative values for each policy year as of December 31 of the evaluation year.

Line 4, Column (A) reports paid losses for 2009 policies as of December 31, 2009.

Line 4, Column (B) reports paid losses for 2009 policies as of December 31, 2010.

**Paid Losses**

For each policy year, report the *cumulative* amount paid for all policies issued in that year.

For example, assume for policies issued in 2009, incremental paid losses occurred in the following years, in the following amounts:

- 2009 - \$10,000
- 2011 - \$12,500 → (cumulative amount paid is \$22,500)
- 2015 - \$22,700 → (cumulative amount paid is \$45,200)
- For all other years, no payments were made

In this example, the development triangle should be completed as follows:

- Line 4, column (A): \$10,000
- Line 4, column (B): \$10,000 → (no payments made in the year)
- Line 4, column (C): \$22,500 → (cumulative paid changed from \$10,000 to \$22,500)
- Line 4, column (D-F): \$22,500 → (no payments made in the year)
- Line 4, column (G): \$45,200 → (cumulative paid changed from \$22,500 to \$45,200)
- Line 4, column (H-J): \$45,200 → (no payments made in the year)

### Case Basis Reserves

For each policy year, report the case basis reserves held as of December 31 each evaluation year.

Continuing with the previous example, assume the year-ending case basis reserves held for the 2009 policy year were:

- 2009 - \$40,000
- 2011 - \$30,000
- 2015 - \$10,000
- 2016 - \$0

In this example, the development triangle should be completed as follows:

- Line 5, column (A): \$40,000
- Line 5, column (B): \$40,000 → (no change)
- Line 5, column (C): \$30,000 → (reduced based on payments made in year)
- Line 5, column (D-F): \$30,000 → (no change)
- Line 5, column (G): \$10,000 → (reduced based on payments made in year)
- Line 5, column (H): \$0 → (reduced based on expectation that all claims closed)
- Line 5, column (I-J): \$0 → (no change)

### Incurred Losses

As previously noted, incurred losses for each policy year are the sum of the paid losses and case basis reserves for each evaluation year. The spreadsheet automatically calculates the sum of these values, so no entry is required in these cells.

**FORM 6**

**SPECIAL INSTRUCTIONS FOR COMPLETING  
THE ALTA INCOME STATEMENT SUMMARY  
AND THE  
ALTA BALANCE SHEET SUMMARY**

Complete the reporting schedules for the Income Statement Summary and the Balance Sheet Summary according to the instructions for the ALTA Uniform Financial Reporting Plan.\* In particular, please note that:

1. The Financial Reporting Plan includes all charges where the underwriter participates gross as to agency retentions for those charges.
2. When completing the Texas Balance Sheet Summary, first assign Loss Reserves (line 10) and Statutory Reinsurance Reserves (line 11) to Texas. Then allocate lines 12, 13, 15, and 17 to Texas using the common ratio:

(Line 9 - (Line 10 + Line 11)) for Texas  
(Line 9 - (Line 10 + Line 11)) Total

Calculate line 14 as the sum of lines 12 and 13;

Calculate line 16 as the sum of lines 10, 11, 14, and 15;

Calculate line 18 as the sum of lines 16 and 17.

Using this procedure guarantees that the balance sheet will balance, column by column. **TDI will not accept out-of-balance conditions.**

3. In allocating investment income items on the Income Statement Summary (lines 16 through 21) to Texas, use the ratio:

Balance Sheet Summary Line 16, for Texas  
Balance Sheet Summary Line 16, Total
