CALL FOR FOURTH QUARTER EXPERIENCE - 2005

Due February 15, 2006

Instructions:

1. This call must be completed on an individual carrier basis. Make copies and submit separate forms for each company in your group that is licensed to write one or more lines of business covered in this data call. Group reporting is not allowed. Enter Carrier Name and Carrier NAIC Number on the report form along with the name and telephone number of the carrier contact person.
2. Reported experience should be valued as of 12/31/2005.
3. If a company has no experience to report, "NONE" should be stamped on the form and the affidavit should be completed.
4. Direct Policies Written (column (1)) are defined as Texas new and renewal policies issued by the carrier acting as the primary carrier. An adjustment for cancellations should be made only if the policy is issued and canceled in the same quarter. There should be no adjustment for policies assumed or ceded. Reported policies should be adjusted to an annual basis (i.e., a twelve month policy should be reported as 1.0 policy, and a six month policy should be reported as 0.5 policies).

Use the accounting date, rather than the policy effective date, to determine the calendar quarter in which a policy is to be reported.

For Private Passenger Automobile policies that include both liability and physical damage coverage, report a policy for each.

For Workers' Compensation, use an annual premium to determine the premium size category in which the policy is to be reported (i.e., a six month policy with a premium of \$4,000 should be reported as 0.5 policies in the \$5,000 - \$100,000 category). Report small premium policy plan risks as voluntary risks.

For General Liability policies that include both products and premises operations coverage, report a policy for each.

Commercial Multiple Peril experience should include Fire & Allied and Casualty coverage.

Miscellaneous Professional Liability should exclude accountants, architects, beauticians/barbers, lawyers, medical laboratory personnel, psychologists, real estate agents, surveyors, and x-ray lab personnel.

5. Total Premiums on Direct Policies Written This Period (column (2)) are defined as total policy premiums on the policies reported in column (1). Do not include premiums from any transaction on a policy with an **accounting date** prior to 10/01/2005 or after 12/31/2005. Report total policy premium (estimate if necessary) even if initial premium collected was a deposit or first installment premium. On multi-state policies, report only the Texas portion. Amounts reported in this column are not expected to balance to Texas Statutory Page 14 of the annual statement.
6. Total Direct Premiums Written This Period (column (3)) and Total Direct Losses Paid This Period (column (4)) should be completed using the same methods/rules used in completing the Texas Statutory Page 14 of the annual statement. This includes any premium transaction that occurred during the quarter (i.e., cancellations, endorsements, retro adjustments, etc.) and any direct losses paid during the quarter regardless of when the policy was written or when the accident occurred.
7. Additional calls will be issued as experience for subsequent calendar quarters becomes available. Such calls will be due approximately 45 days after the end of the quarter.
8. The affidavit form must be signed by the highest ranking company official with management and control authority over the development of the reported information. The affidavit must be notarized and the original must be submitted.
9. If a TDI acknowledgment of receipt is desired, include a stamped, self addressed envelope and an additional copy of the call report which will be date stamped and returned.
