Texas catastrophe area: The area comprising the following Texas counties: Aransas, Brazoria, Calhoun, Cameron, Chambers, Galveston, Jefferson, Kenedy, Kleberg, Matagorda, Nueces, Refugio, San Patricio, Willacy, and the following portions of Harris County:

- City of Morgan's Point
- City of Seabrook – all areas east of Highway 146
- City of La Porte – all areas east of Highway 146
- City of Pasadena – all areas east of Highway 146
- City of Shoreacres – all areas east of Highway 146

Voluntary commercial allied lines direct written premium: The total direct written allied lines premium on commercial monoline or multiple peril policies insuring commercial risks in the Texas catastrophe area that includes coverage for losses due to windstorm damage. Voluntary premium does not include allied lines premium on policies insuring commercial risks in the catastrophe area if the policy contains a windstorm exclusion.

Voluntary businessowners direct written premium: The total direct written premium on businessowners policies insuring commercial risks in the Texas catastrophe area that includes coverage for losses due to windstorm damage. Voluntary premium does not include direct written premium on policies insuring commercial risks in the catastrophe area if the policy contains a windstorm exclusion.

Instructions

The Texas Department of Insurance uses a fillable PDF form for this data call.

TDI collects this data call using a fillable PDF form. The form requires Adobe Acrobat Standard 9.0, Adobe Professional 9.0, Adobe Reader 9.0, or a more recent version to successfully fill in the form. The form is not compatible with any software product other than Adobe.

1. Submit one report for each insurance company. No group reporting is allowed. Only specified companies are required to respond to this data call (see 2), but certain companies may report voluntarily (see 3).
2. Enter the company's NAIC company number in the form. Companies that are **not** required to report will receive the following message: "This company is not required to report this year, and no further action is required." Companies that do **not** receive this message must complete the data call.
3. Companies that are not required to report commercial data under the data call may report data to TDI voluntarily if, for annual statement lines 2.1 (allied lines) or 5.1 (commercial multiple peril (nonliability)):
 - the company reports significant Texas commercial lines premium under ISO's Company Program Exception (CPE) module of the CSP+ for which it does not report ISO territory code; or
 - the company reports significant Texas commercial lines premium as Special Risk under TDI's Texas Commercial Lines Statistical Plan (TCLSP).

Companies reporting voluntarily must report data for **all** of their monoline allied lines, multiple peril allied lines, and business owners programs, including programs that are not reported to ISO as CPE or Special Risk. Companies reporting voluntarily must comply with all reporting instructions.

4. Companies that are eligible to report voluntarily, upon entering their NAIC number into the form, will receive the following message: "This company is not required to report, but it may report voluntarily. To do so, close this message and fill out the form." Close the message and continue to fill out the form.
5. If a company that is required to submit data has not written any voluntary premium in any portion of the catastrophe area, click the "NONE" box. Do not enter zeros in any fields on the forms.

Script errors: These forms contain internal programming and calculations. Entering zeros will cause script errors. To correct this problem, click the "Clear Form" button to restart the form.

6. **Voluntary monoline allied lines direct written premium** – For companies in Category 1 or Category 2, as defined in the bulletin, report the total direct written allied lines premium on commercial monoline policies insuring commercial risks in the Texas catastrophe area that includes coverage for losses due to windstorm damage. Voluntary premium does not include allied lines premium on policies insuring commercial risks in the catastrophe area if the policy contains a windstorm exclusion.

For companies in Category 3, as defined in the bulletin, report the total direct written allied lines premium on policies insuring residential or commercial risks in the Texas catastrophe area that includes coverage for losses due to windstorm damage. Voluntary premium does not include allied lines premium on policies insuring risks in the catastrophe area if the policy contains a windstorm exclusion.

7. **Voluntary commercial multiple peril allied lines direct written premium** – Report the total direct written allied lines premium on commercial multiple peril policies insuring commercial risks in the Texas catastrophe area that includes coverage for losses due to windstorm damage. Voluntary premium does not include allied lines premium on policies insuring commercial risks in the catastrophe area if the policy contains a windstorm exclusion.
8. **Voluntary business owners direct written premium** – Report the total direct written premium on business owners policies insuring commercial risks in the Texas catastrophe area that includes coverage for losses due to windstorm damage. Voluntary premium does not include direct written premium on policies insuring commercial risks in the catastrophe area if the policy contains a windstorm exclusion.
9. Submit your affidavit by email no later than **May 22, 2026** to DataCall@tdi.texas.gov.

Direct questions concerning this call to TDI's Data Services team at 512-676-6690 or email DataCall@tdi.texas.gov.
