ISSUES

A contested case hearing was held on May 24, 2011 to decide the following disputed issue:

Is the preponderance of the evidence contrary to the Medical Fee Dispute Resolution Findings and Decision that (Healthcare Provider), Petitioner, is not entitled to additional reimbursement for the compensable injury of (Date of Injury) in the amount of \$481.04 for 150 units of Hydrocod/Apap 10/650 Tablet dispensed to Claimant on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, January 12, 2010, and February 12, 2010; \$340.32 for 30 units of Zaleplon 10 MG Capsule dispensed to Claimant on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, and January 12, 2010; \$38.85 for 60 units of Diazepam 5 MG Tablet dispensed to Claimant on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, January 12, 2010, and February 15, 2010; and \$682.15 for 60 units of Morphine Sulf 60 MG Tablet dispensed to Claimant on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, January 12, 2010, and February 15, 2010?

PARTIES PRESENT

BACKGROUND INFORMATION

(Healthcare Provider) is an in-house pharmacy, providing medication to injured parties under workers' compensation law for the rehabilitation facility, Functional Restoration Services. The following table serves to outline the overall dispute between (Healthcare Provider) and Carrier in this case:

Table 1

| Date(s) of Service (DOS) | Medication / No. of Units | (Healthcare Provider) Charge to Carrier | Carrier Reimbursement to (Healthcare Provider) | Amount in Dispute |

The evidence presented in the hearing indicated that the reimbursement Carrier provided to (Healthcare Provider) was based on Carrier's calculation of a reasonable and customary fee for the medications.

After its request for reconsideration was denied by Carrier, (Healthcare Provider) requested relief through the Division's Medical Fee Dispute Resolution (MFDR) section in order to obtain the remaining reimbursement totaling \$1,542.36 from Carrier.

On January 13, 2011, the Division's MFDR Officer issued a decision ("Medical Fee Dispute Resolution Findings and Decision" or MFDRFD) holding that (Healthcare Provider) was not entitled to additional reimbursement at issue from Carrier. The rationale behind the decision was

that the Division was not provided with sufficient evidence to substantiate (Healthcare Provider)' usual and customary (U&C) charge for the medications at issue. Following the adverse decision from MFDR, Med-Plus requested a medical contested case hearing to resolve the fee question in this case.

An employee who sustains a compensable injury is entitled to all health care reasonably required by the nature of the injury as and when needed. (Texas Labor Code §408.021). The term "health care" includes a prescription drug, medicine, or other remedy. (Texas Labor Code §401.011(19)(E)). The commissioner of the Division of Workers' Compensation is directed by statute to adopt a fee schedule for pharmacy and pharmaceutical services that will provide reimbursement rates that are fair and reasonable; assure adequate access to medications and services for injured workers; and minimize costs to employees and insurance carriers. (Texas Labor Code §408.028(f)). Insurance carriers must reimburse for pharmacy benefits and services using the fee schedule or at rates negotiated by contract. (Texas Labor Code §408.028(g)). The commissioner has adopted reimbursement methodology to establish the maximum allowable reimbursement (MAR) for prescription drugs in Rule 134.503.

Pursuant to Rule 134.503, the MAR for prescription drugs is the lesser of the provider's U&C charge for the same or similar service or a fee established by formulas based on the average wholesale price (AWP) determined by utilizing a nationally recognized pharmaceutical reimbursement system such as Redbook or First DataBank Inc. in effect on the day the prescription drug was dispensed. For generic drugs, the formula is AWP per unit multiplied by the number of units multiplied by 1.25, plus a \$4.00 dispensing fee. See Rule 134.503(a)(2)(A). The evidence presented in the hearing revealed that the prescription medications at issue in this case are generic drugs. There is no contract between (Healthcare Provider) and Carrier, so Rule 134.503(a)(3) does not apply to the facts of this case.

On December 11, 2003, RR, the Executive Director of the Texas Workers' Compensation Commission, issued Advisory 2003-21 to address the determination of a pharmacy's U&C charge for prescription drugs. In part, the Advisory states:

The Commission's pharmacy prescription pricing rule is based, in part, on several important provisions concerning health care provider charges. First, fee guidelines are based, in part, on a provision that payment may not be in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf (Texas Labor Code Section 413.011(d)). Also, "[a] health care provider commits an offense if the person knowingly charges an insurance carrier an amount greater than that normally charged for similar treatment to a payor outside the workers' compensation system, except for mandated or negotiated charges" (Texas Labor Code §413.043(a)).

Parties requesting medical dispute resolution should ensure that they abide by the statute and rule references outlined above. The Commission's Medical Dispute Resolution Section has indicated that parties filing a dispute have the burden of proof to support their position for advocating additional reimbursement. The burden of proof includes production of sufficient evidence to support that the reimbursement requested is in accordance with the factors listed in §413.011(b) of the Texas Workers' Compensation Act.

(Healthcare Provider) has the burden to establish its entitlement to the additional reimbursement it seeks. (Healthcare Provider)'s pharmacy manager, Mr. H, provided an affidavit that was admitted into evidence. Mr. H's April 29, 2011 affidavit indicates that (Healthcare Provider) makes no distinction between AWP and its U&C charges to avoid any discrepancy. (Healthcare Provider) also furnished literature and pricing information from RX30, a professional billing and pricing hardware and software program that (Healthcare Provider) utilizes. The evidence included an e-mail from Ms. P, an employee of RX30, who indicated that RX30 does not calculate AWP itself, but, rather, it obtains current average wholesale pricing information for medications from First DataBank, Inc., a nationally recognized pharmaceutical reimbursement system. Ms. P's e-mail indicated that AWP's may vary if sources other than First DataBank, Inc. are used.

(Healthcare Provider) presented evidence from the RX30 computer program that the AWP for Hydrocodone/APAP 10/650 Tablet on the dispensing dates of August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, January 12, 2010 and February 12, 2010 was 0.9093. The following indicates the calculation of MAR pursuant to Rule 134.503(a)(2)(A) for this medication:

$$\$0.9093 \text{ (AWP)} \times 150 \text{ (\# of Units)} \times 1.25 + \$4.00 \text{ (dispensing fee)} = \$174.50$$

The evidence, particularly the (Healthcare Provider) dispensing records for the period of August 1, 2009 through February 20, 2010 for this medication, was persuasive in showing that (Healthcare Provider)'s U&C charge for this medication is the same as the amount elicited from the Rule 134.503(a)(2)(A) formula calculation (\$174.50). Therefore, as the evidence indicated, (Healthcare Provider) is found to be entitled to additional reimbursement in the amount of \$480.97 (\$68.71 x 7) for Hydrocodone/APAP 10/650 (150 units) dispensed on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, January 12, 2010, and February 12, 2010.

With regard to Zaleplon 10 MG Capsule (Healthcare Provider) presented evidence from the RX30 computer program that the AWP for this medication on the dates at issue was 3.74667. As illustrated in the table on page 2, above, the amount (Healthcare Provider) charged Carrier for 30 units of the medication was \$144.50.

The following indicates the calculation of MAR pursuant to Rule 134.503(a)(2)(A) for this medication for 30 units:

$$\$03.74667 \text{ (AWP)} \times 30 \text{ (\# of Units)} \times 1.25 + \$4.00 \text{ (dispensing fee)} = \$144.5001$$

The dispensing records from (Healthcare Provider) for this medication for the period from January 1, 2009 through May 31, 2010 were persuasive in establishing that its U&C charge for 30 units of the drug was \$144.50 during the period at issue. The evidence showed that (Healthcare Provider)' U&C charge for this medication is the same as the amount elicited from the Rule 134.503(a)(2)(A) MAR formula calculations. Therefore, as the evidence indicated, (Healthcare Provider) is found to be entitled to additional reimbursement in the amount of \$340.32 for the amount billed for Zaleplon 10 MG Capsule (30 units), dispensed on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, and January 12, 2010.

With regard to Diazepam 5 MG Tablet (Healthcare Provider) presented evidence from the RX30 computer program that the AWP for this medication on the dates at issue was 0.168. As illustrated in the table on page 2, above, the amount (Healthcare Provider) charged Carrier for 60 units of the medication was \$16.60.

The following indicates the calculation of MAR pursuant to Rule 134.503(a)(2)(A) for this medication for 60 units:

$$\$0.168 \text{ (AWP)} \times 60 \text{ (\# of Units)} \times 1.25 + \$4.00 \text{ (dispensing fee)} = \$16.60$$

The dispensing records from (Healthcare Provider) for this medication for the period from August 1, 2009 through February 28, 2010 were persuasive in establishing that its U&C charge for 60 units of the drug was \$16.60 during the period at issue. The evidence showed that (Healthcare Provider)' U&C charge for this medication is the same as the amount elicited from the Rule 134.503(a)(2)(A) MAR formula calculations. Therefore, as the evidence indicated, (Healthcare Provider) is found to be entitled to additional reimbursement in the amount of \$38.85 for the amount billed for Diazepam 5 MG Capsule (60 units), dispensed on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, January 12, 2010 and February 15, 2010.

With regard to Morphine Sulf 60 MG Tab SA (Healthcare Provider) presented evidence from the RX30 computer program that the AWP for this medication on the dates dispensed for August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, and January 12, 2010 was 3.3061. As illustrated in the table on page 2, above, the amount (Healthcare Provider) charged Carrier for 60 units of the medication was \$249.30.

The following indicates the calculation of MAR pursuant to Rule 134.503(a)(2)(A) for this medication for 30 units:

$$\$3.3061 \text{ (AWP)} \times 60 \text{ (\# of Units)} \times 1.25 + \$4.00 \text{ (dispensing fee)} = \$251.9575$$

It appears that (Healthcare Provider) actually charged Carrier a U&C amount (\$249.30) that was less than the product of the Rule 134.503(a)(2)(A) MAR calculation. The dispensing records from (Healthcare Provider) for this medication for the period from July 20, 2009 through February 28, 2010 were persuasive in establishing that its U&C charge for 60 units of the drug was \$249.30 during the period at issue. Therefore, the evidence indicated that (Healthcare Provider) is found to be entitled to additional reimbursement in the amount of \$582.18 for the amount billed for Morphine Sulf 60 MG Tab SA (60 units), dispensed on August 25, 2009, September 22, 2009, October 20, 2009, November 17, 2009, December 15, 2009, and January 12, 2010.

With regard to Morphine Sulf 60 MG Tab SA, dispensed on February 15, 2010, (Healthcare Provider) presented evidence from the RX30 computer program that the AWP for this medication on February 15, 2010 was 3.3147. As illustrated in the table on page 3, above, the amount (Healthcare Provider) charged Carrier for 60 units of the medication was \$252.60.

The following indicates the calculation of MAR pursuant to Rule 134.503(a)(2)(A) for this medication for 60 units:

$$\$3.3147 \text{ (AWP)} \times 60 \text{ (\# of Units)} \times 1.25 + \$4.00 \text{ (dispensing fee)} = \$252.603$$

The evidence, particularly the (Healthcare Provider) dispensing records for the period from July 20, 2009 through February 28, 2010 for this medication, was persuasive in showing that (Healthcare Provider)' U&C charge for this medication is the same as the amount elicited from Rule 134.503(a)(2)(A) formula calculation. Therefore, the evidence indicated that (Healthcare Provider) is found to be entitled to additional reimbursement in the amount of \$99.97 for the amount billed for Morphine Sulf 60 MG Tab SA (60 units) dispensed on February 15, 2010.

Though the evidence indicated that (Healthcare Provider) did offer a discount to a very limited number of customers who pay for their medications in cash, the affidavit from Mr. H, dated April 1, 2011, persuasively explained that this amount was statistically insignificant (less than 0.0025%).

Even though all the evidence presented was not discussed, it was considered. The Findings of Fact and Conclusions of Law are based on all of the evidence presented.
