## Issues

1. Did the audited charges exceed \$40,000.00?
2. Did the admission in dispute involve unusually extensive services?
3. Did the admission in dispute involve unusually costly services?
4. Is the requester entitled to additional reimbursement?

## Findings

This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.401, titled *Acute Care Inpatient Hospital Fee Guideline*, effective August 1, 1997, 22 Texas Register 6264. The Third Court of Appeals' November 13, 2008, opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 South Western Reporter Third 538, 550 (Texas Appeals – Austin 2008, petition denied) addressed a challenge to the interpretation of 28 TAC §134.401. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services."

Consistent with the Third Court of Appeals' November 13, 2008, opinion, the DWC will address whether the total audited charges *in this case* exceed \$40,000; whether the admission and disputed services *in this case* are unusually extensive; and whether the admission and disputed services *in this case* are unusually costly. 28 TAC §134.401(c)(2)(C) states, in pertinent part, that "Independent reimbursement is allowed on a case-by-case basis if the particular case exceeds the stop-loss threshold..." In that same opinion, the Third Court of Appeals states that the stop loss exception "...was meant to apply on a case-by-case basis in relatively few cases." 28 TAC §134.401(c)(6) puts forth the requirements to meet the three factors that will be discussed.

1. 28 TAC §134.401(c)(6)(A)(i) states, "to be eligible for stop-loss payment the total audited charges for a hospital admission must exceed \$40,000, the minimum stop-loss threshold." Furthermore, 28 TAC §134.401(c)(6)(A)(v) states that "Audited charges are those charges which remain after a bill review by the insurance carrier has been performed." Review of the explanation of benefits issued by the respondent finds that the carrier did not deduct any charges in accordance with 28 TAC §134.401(c)(6)(A)(v). Therefore, the audited charges equal \$49,904.14. The DWC concludes that the total audited charges exceed \$40,000.00.
2. 28 TAC §134.401(c)(6) states that "Stop-loss is an independent reimbursement methodology established to ensure fair and reasonable compensation to the hospital for unusually costly services rendered during treatment to an injured worker." The Third Court of Appeals' November 13, 2008, opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must demonstrate that an admission involved unusually costly services.

The requestor's position statement does not address how this inpatient admission was unusually costly. The requestor does not provide a reasonable comparison between the cost associated with this admission when compared to similar spinal surgery services or admissions, thereby failing to demonstrate that the admission in dispute was unusually costly. The DWC concludes that the requestor failed to meet the requirements of 28 TAC §134.401(c)(6).

3. 28 TAC §134.401(c)(2)(C) allows for payment under the stop-loss exception on a case-by-case basis only if the particular case exceeds the stop-loss threshold as described in paragraph (6). 28 TAC §134.401(c)(6)(A)(ii) states that "this stop-loss threshold is established to ensure compensation for unusually extensive services required during an admission."

The Third Court of Appeals' November 13, 2008, opinion states that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." It further states that "independent reimbursement under the Stop-Loss Exception was meant to apply on a case-by-case basis in relatively few cases."

The requestor, in its original position statement, states that "...in this instance, the Carrier has severely under reimbursed the billed charges, despite the clear language in the Texas Administrative Code and further clarification provided by the TWCC in QRL 01-03." This statement does not meet the requirements of 28 TAC §134.401(c)(2)(C) because the requestor presumes that the disputed services meet the stop-loss exception since the billed amount was over \$40,000.00, thereby presuming that the admission was unusually extensive. The DWC concludes that the requestor failed to meet the requirements of 28 TAC §134.401(c)(2)(C).

4. For the reasons stated above, the services in dispute are not eligible for the stop-loss method of reimbursement. Consequently, reimbursement shall be calculated pursuant to 28 TAC §134.401(c)(1) subtitled *Standard Per Diem Amount* and §134.401(c)(4) subtitled *Additional Reimbursements*. The DWC notes that additional reimbursements under §134.401(c)(4) apply only to bills that do not reach the stop-loss threshold described in subsection (c)(6) of this section.

28 TAC §134.401(c)(3)(A)(ii) states, in pertinent part, that "The applicable Workers' Compensation Standard Per Diem Amount (SPDA) is multiplied by the length of stay (LOS) for admission ..." A review of the submitted documentation finds that the length of stay for this admission was two surgical days; therefore, the standard per diem amount of \$1,118.00 multiplied by the two days resulted in a total allowable amount of \$2,236.00.

28 TAC §134.401(c)(4)(C) states "Pharmaceuticals administered during the admission and greater than \$250 charged per dose shall be reimbursed at cost to the hospital plus 10%. Dose is the amount of a drug or other substance to be administered at one time." A review of the submitted documentation finds that the requestor included charges of \$1708.55 each for two units of Tobramycin 1.25gm and \$289.00 for Dilaudid PCA 100ml. No documentation was found to support the cost of these drugs to the hospital. Therefore, no additional reimbursement is recommended.

The DWC concludes that the total allowable for this admission is \$2,236.00. The

respondent issued payment in the amount of \$2,581.00. Based upon the documentation submitted, additional reimbursement cannot be recommended.

Conclusion

The submitted documentation does not support the reimbursement amount sought by the requestor. The requester in this case demonstrated that the audited charges exceed \$40,000 but failed to demonstrate that the disputed inpatient hospital admission involved unusually extensive services and failed to demonstrate that the services in dispute were unusually costly.

Consequently, 28 TAC §134.401(c)(1) titled *Standard Per Diem Amount*, and §134.401(c)(4) titled *Additional Reimbursements* are applied and result in no additional reimbursement.

**Order**

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the DWC has determined that the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
