FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.502 sets out the procedures for pharmaceutical benefits.
3. 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
4. 28 Texas Administrative Code §134.530 sets out the closed formulary requirements for claims not subject to certified networks.
5. Texas Insurance Code, Chapter 4201 provides requirements related to utilization review.

6. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 85 – Claim not processed
 - 75 – Prior authorization required
 - 55 – Patient is not covered
 - 71 – Prescriber is not covered
 - 70 – Drug not on formulary

Issues

1. Is the insurance carrier’s reason for denial of payment supported?
2. Is Memorial Compounding Pharmacy (Memorial) entitled to reimbursement of the disputed services?

Findings

1. Memorial is seeking reimbursement of \$566.53 for a compound dispensed on September 15, 2017. Trumbull Insurance Co denied the disputed service with claim adjustment reason code 85 – “Claim not processed”, 75 – “Prior authorization required”, 55 – “Patient is not covered”, 71 – Prescriber is not covered” and 70 – “Drug not formulary.”

Trumbull Insurance Co denied the disputed services, in part, with claim adjustment reason code 71, indicating the prescriber is not covered. Review of the submitted documentation failed to support that either Memorial Compounding Pharmacy or the listed prescriber is not a covered provider. For this reason, the division finds that this denial reason is not supported.

28 Texas Administrative Code §134.530(b)(1) states that preauthorization is **only** required for:

- (A) drugs identified with a status of “N” in the current edition of the *ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary*, and any updates;
- (B) any compound that contains a drug identified with a status of "N" in the current edition of the *ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary*, and any updates; and
- (C) any investigational or experimental drug for which there is early, developing scientific or clinical evidence demonstrating the potential efficacy of the treatment, but which is not yet broadly accepted as the prevailing standard of care as defined in Labor Code §413.014(a).

Provision §134.530(b)(1)(A) preauthorization requirement is not discussed in this dispute because it was not asserted by either party in this dispute and is not applicable to the compound in question.

While not asserted by Trumbull Insurance Co, Memorial was not required to seek preauthorization pursuant to §134.530(b)(1)(B) because none of the compounded ingredients have a status of "N" in the current edition of the ODG/Appendix A.

The Hartford, on behalf of Trumbull Insurance Co, argued that “The Hartford considers the medications in dispute to be experimental and investigation as defined in 28 TAC 19.2003 (b)(11). Billing therefore would need to be submitted for Utilization Review prior to authorization as allowed by 14 TIC 4201.002(13).”

The determination of a service’s investigational or experimental nature is not subject to the *Official Disability Guidelines (ODG)*. Instead, it is determined on a case by case basis as a utilization review pursuant to Texas Insurance Code §4201.002. Further, Texas Insurance Code §4201.002(13) states that utilization review, in relevant part, “includes a system for prospective, concurrent, or retrospective review to determine the experimental or investigational nature of health care services.”

The division found **no evidence** that Trumbull Insurance Co engaged in a prospective or retrospective utilization review (UR) as required by Texas Insurance Code §4201.002 in order to establish that the following compound is investigational or experimental in nature:

Compound Cream in Dispute	
Ingredient	Amount
Meloxicam	0.18 gm

Flurbiprofen	4.8 gm
Tramadol HCL	6.0 gm
Cyclobenzaprine HCL	1.8 gm
Bupivacaine HCL	1.2 gm

Because Trumbull Insurance Co failed to perform UR on the above listed compound, the requirement for preauthorization under §134.530(b)(1)(C) **is not triggered** in this case Trumbull Insurance Co's preauthorization denial is therefore not supported.

Absent any evidence that Trumbull Insurance Co presented other defenses to Memorial before medical fee dispute resolution that conform with the requirements of Title 28, Part 2, Chapter 133, Subchapter C, the division finds that the compounds in question are eligible for reimbursement.

2. 28 Texas Administrative Code §134.503 applies to the services in dispute and states, in pertinent part:
 - (c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:
 - (1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:
 - (A) Generic drugs: $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.25) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (B) Brand name drugs: $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.09) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or
 - (2) notwithstanding §133.20(e)(1) of this title (relating to Medical Bill Submission by Health Care Provider), the amount billed to the insurance carrier by the:
 - (A) health care provider; or
 - (B) pharmacy processing agent only if the health care provider has not previously billed the insurance carrier for the prescription drug and the pharmacy processing agent is billing on behalf of the health care provider.

The compounds in dispute were billed by listing each drug included in the compound and calculating the charge for each drug separately as required by 28 Texas Administrative Code §134.502(d)(2). Reimbursement is calculated as follows:

Drug	NDC	Generic(G) /Brand(B)	Price /Unit	Units Billed	AWP Formula	Billed Amt	Lesser of AWP and Billed
Meloxicam	3877927460 1	G	\$194.67	0.18	\$43.80	\$35.04	\$35.04
Flurbiprofen	3877903620 9	G	\$36.58	4.8	\$219.48	\$175.58	\$175.58
Tramadol HCL	3877923740 9	G	\$36.30	6	\$272.25	\$217.80	\$217.80
Cyclobenzaprine HCL	3877903950 9	G	\$46.33	1.8	\$104.24	\$83.39	\$83.39
Bupivacaine HCL	3877905240 5	G	\$45.60	1.2	\$68.40	\$54.72	\$54.72
						Total	\$566.53

The total allowable reimbursement for the compound in dispute is \$566.53. This amount is recommended.

Conclusion

The outcome of each independent medical fee dispute relies upon the relevant evidence presented by the requestor and the respondent at the time of adjudication. Though all the evidence in this dispute may not have been discussed, it was considered.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the division has determined the requestor is entitled to additional reimbursement for the disputed services. The division hereby ORDERS the respondent to remit to the requestor \$566.53, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
