### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

#### **Background**

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
- 28 Texas Administrative Code §134.530 sets out prior authorization requirement for pharmacy services.
- The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
  - 197 – Precertification/authorization/notification absent

**Issues**

1. Is the requestors’ position supported?
2. Is the requestor entitled to reimbursement for the compound in question?

**Findings**

1. The requestor states, “The carrier denied the reconsideration based on (Code 25, however, the prescriber number is BN9708871). Review of the submitted documentation found the request for reconsideration was submitted on July 11, 2018. The explanation of benefits with the “25” remark code is dated December 13, 2017. The requestor’s position will not be considered in this review.
2. The requestor is seeking reimbursement of \$566.53 for a compound dispensed November 14, 2017.

The insurance carrier denied the request for reconsideration based on lack of certification on July 27, 2018. 28 TAC §134.530(g) states in pertinent parts,

Retrospective review. Except as provided in subsection (f)(1) of this section, drugs that do not require preauthorization **are subject to retrospective review** for medical necessity in accordance with §133.230 of this title (relating to Insurance Carrier Audit of a Medical Bill) and §133.240 of this title (relating to Medical Payments and Denials), and applicable provisions of Chapter 19 of this title.

(2) In order for an insurance carrier to deny payment subject to a retrospective review for pharmaceutical services that are recommended by the division's adopted treatment guidelines, §137.100 of this title, the denial must be supported by documentation of evidence-based medicine that outweighs the presumption of reasonableness established under Labor Code §413.017.

The adverse determination submitted by the insurance carrier states, “The records submitted for review would not support the requested compounded medication as reasonable or necessary. The use of compounded medications is not supported by current evidence-based guidelines...” “Given these issues which do not meet guideline recommendations, this reviewer cannot recommend certification...”

Based on the provisions of retrospective review, the non-certification of the services, and evidence the requestor was notified of this adverse determination prior to the request for MFDR, payment is not recommended.

**Conclusion**

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

***ORDER***

Based on the submitted information, pursuant to Texas Labor Code Section 413.031, the division hereby determines the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
