FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.502 sets out the procedures for pharmaceutical benefits.
3. 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
4. The insurance carrier denied payment based on preauthorization.

Issues

1. Is the insurance carrier's denial of payment based on preauthorization supported?
2. Is Memorial Compounding Pharmacy (Memorial) entitled to reimbursement for the compound in question?

Findings

1. Memorial is seeking reimbursement for a compound dispensed on January 11, 2018. The insurance carrier denied the disputed compound based on preauthorization. Preauthorization is only required for:
 - drugs identified with a status of "N" in the current edition of the ODG Appendix A¹;
 - any compound that contains a drug identified with a status of "N" in the current edition of the ODG Appendix A;
 - and any investigational or experimental drug.²

Ricky D. Green, PLLC argued on behalf of the insurance carrier that "The ODG drug formulary contains two different brands of Meloxicam. Brand name Mobic is a 'Y' drug while brand name Vivlodex is an 'N' Drug. The Requestor has not provided any documentation to support its claim that the compound drug in question did not contain an 'N' drug."

Review of the ODG, Appendix A finds that the brand name formulation of Meloxicam, Vivlodex, has a status of "N" with no generic equivalents. The compound ingredient sought by Memorial, NDC 38779274601, is found to be a **generic** form of Meloxicam, which carries a status of "Y" in the ODG, Appendix A. The DWC concludes that the compound in question does not contain an ingredient identified with a status of "N" in the current edition of the ODG, Appendix A.

The determination of a service's investigational or experimental nature is determined on a case by case basis through utilization review.³ Ricky D. Green, PLLC provided no argument or evidence that the insurance carrier engaged in a prospective or retrospective utilization review to establish that the specific compound considered in this review is investigational or experimental.

The DWC finds that the insurance carrier failed to support that the compound in question required preauthorization.

2. Because the insurance carrier failed to sufficiently support its denial of reimbursement, Memorial is entitled to reimbursement.

The compound in dispute was billed by listing each drug included in the compound and calculating the charge for each drug separately.⁴ Each ingredient is listed below with its reimbursement amount.⁵ The calculation of the total allowable amount is as follows:

Drug	NDC	Generic(G) /Brand(B)	Price /Unit	Units Billed	AWP Formula	Billed Amt	Lesser of AWP and Billed
Flurbiprofen	38779036209	G	\$36.58	6	\$274.35	\$219.48	\$219.48
Meloxicam	38779274601	G	\$194.67	0.18	\$43.80	\$35.04	\$35.04
Mefenamic Acid	38779066906	G	\$123.60	1.8	\$278.10	\$222.48	\$222.48
Baclofen	38779038809	G	\$35.63	3	\$133.61	\$106.89	\$106.89
						Total	\$583.89

The total reimbursement is therefore \$583.89. This amount is recommended.

⁴ 28 Texas Administrative Code §134.502(d)(2)

⁵ 28 Texas Administrative Code §134.503(c)

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$583.89.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the division has determined the requestor is entitled to additional reimbursement for the disputed services.
