### Requestor's Position

"Please note that 2 Texas Administrative Code rules (TAC) apply:  
TAC §127.10 - General procedures for Designated Doctor Examinations:

"(c) The designated doctor shall perform additional testing when necessary to resolve the issue in question. The designated doctor shall also refer an injured employee to other health care providers when the referral is necessary to resolve the issue in question and the designated

doctor is not qualified to fully resolve the issue in question. Any additional testing or referral required for the evaluation is not subject to preauthorization requirements nor shall those services be denied retrospectively based on medical necessity, extent of injury, or compensability in accordance with the Labor Code §408.027 and §413.014, Insurance Code Chapter 1305, or Chapters 10, 19, 133, or 134 of this title (relating to Workers' Compensation Health Care Networks, Agents' Licensing, General Medical Provisions, and Benefits--Guidelines for Medical Services, Charges, and Payments, respectively) but is subject to the requirements of §180.24 of this title (relating to Financial Disclosure).

AND TAC §41.104 also applies. (4) Billing by report--The billing procedure to be used by a health care provider when:

- “(A) no procedural definition and/or dollar value is established in the board's fee guidelines for the treatment or service rendered; or
- (B) when the provider determines that the procedural definition and/or dollar value established in the fee guidelines does not adequately describe the treatment or service rendered. (See §42.145 of this title (relating to Billing.)

“Please note there is no procedural definition established in the fee (Medicare) guidelines for a COMPREHENSIVE FORENSIC INDEPENDENT MEDICAL EXAMINATION

“Physical and neuro-behavioral examination along with diagnostic interview and additional testing that was forensically medically necessary for this examination such as neuropsychiatric testing and measures, blood work, imaging studies, etc. A history and diagnostic interview along with a review of medical records and collateral information that was available was done ...

“This process involved approximately 14 hours of staff and physician time. Neuropsychiatric testing interpretation, report preparation, as well as a review of medical records were accomplished on April 21, 2024, April 22, 2024, April 23, 2024, April 26, 2024, April 27, 2024, April 28, 2024, May 2, 2024, May 3, 2024, May 9, 2024, May 10, 2024, and May 11, 2024. This process involved approximately 21 hours of physician time. Total hours of physician time for evaluation, testing administration, testing supervision, testing scoring, testing interpretation, medical record integration, collateral information integration, literature review, urine drug testing and interpretation and integration of this information into report format was approximately 26 hours.”

**Amount in Dispute: \$11,194.98**

### **Respondent's Position**

“Dr. Brylowski is requesting additional reimbursement in the amount of \$11,194.98. However, the CPT codes that Dr. Brylowski is requesting additional reimbursement for are time-based billing codes that Dr. Brylowski failed to document how long each denied service took to complete. Therefore, Carrier contends that no additional reimbursement is owed.”

## **Findings and Decision**

### Authority

This medical fee dispute is decided according to [Texas Labor Code \(TLC\) §413.031](#) and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

### Statutes and Rules

1. [28 Texas Administrative Code \(TAC\), Section 41](#) sets out the procedures for administration of workers' compensation claims with dates of injury prior to January 1, 1991.
2. [28 TAC §127.10, effective April 30, 2023, 48 TexReg 2123](#), sets out the procedures for designated doctor examinations.
3. [28 TAC §133.307](#) sets out the procedures for resolving medical fee disputes.
4. [28 TAC §134.203](#) sets out the fee guidelines for professional medical services.
5. [28 TAC §134.250, effective July 7, 2016, 41 TexReg 4839](#), sets out the fee guidelines for examinations to determine maximum medical improvement with dates of service prior to June 1, 2024.d

### Denial Reasons

The insurance carrier reduced the payment for the disputed services with the following claim adjustment codes:

- 5141 – Bill has been reviewed by a nurse or under the direction of a nurse.
- 5346 – Please specify time spent on billed procedure for further review.
- 250 – The attachment/other docmnetaiton that was received was the incorrect attachment/document. The expected attachment/document is still missing.
- 247 – A payment or denial has already been recommended for this service.
- 18 – Exact duplicate claim/service.
- N111 – No appeal right except duplicate claim/service issue. This service was included in a claim that has been previously billed and adjudicated.

### Issues

1. What are the services considered in this review?
2. What are the applicable rules for review of the testing services in this dispute?
3. Is Dr. Brylowski entitled to reimbursement for procedure codes 96116 and 96121?
4. Is Dr. Brylowski entitled to reimbursement for procedure codes 96132, 96133, 96136, and 96137?

## Findings

1. Dr. Brylowski submitted this dispute in accordance with 28 TAC §133.307 for the following procedure codes:

- 99456-WP-W5
- 99082-51-59
- 99199-51-59
- 90792-51-59
- 96116-51-59
- 96121-51-59
- 96132-51-59
- 96133-51-59
- 96136-51-59
- 96137-51-59

He is seeking \$0.00 for procedure codes 99456, 99082, 99199, 90792. Therefore, these procedures will not be considered in this dispute.

Dr. Brylowski is seeking \$11,194.98 for the remaining procedure codes. These procedures will be reviewed in this dispute.

2. The procedure codes in question are considered professional medical services. DWC will review these services for reimbursement in accordance with relevant rules.

Dr. Brylowski indicated that reimbursement should be evaluated based on rules found in "TAC §127.10" and "TAC §41.104."

While he referenced an older version of Chapter 127, Section 10, DWC finds that this rule in effect for the dates of service in question states in Subsection (c), in relevant part, "Additional testing and referrals. The designated doctor must perform additional testing when necessary to resolve the issue in question. The designated doctor must also refer an injured employee to other health care providers when the referral is necessary to resolve the issue in question, and the designated doctor is not qualified to fully resolve it.

- (1) Any additional testing or referrals required for the evaluation are not subject to preauthorization requirements.
- (2) Payment for additional testing or referrals that the designated doctor has determined are necessary under this subsection must not be denied prospectively or retrospectively, regardless of any potential disagreements about medical necessity, extent of injury, or compensability.
- (3) Any additional testing or referrals required for the evaluation are subject to the requirements of §180.24 of this title (relating to Financial Disclosure).
- (4) Any additional testing or referrals required for the evaluation of an injured employee under a certified workers' compensation network under Insurance Code Chapter 1305 or a political subdivision under Labor Code §504.053(b):

- (A) are not required to use a provider in the same network as the injured employee; and
- (B) are not subject to the network or out-of-network restrictions in Insurance Code §1305.101 (relating to Providing or Arranging for Health Care).

DWC reviewed the explanations of benefits submitted and found that the insurance carrier did not deny payment based on medical necessity, preauthorization requirements, extent of injury, compensability, or network status. Therefore, this rule is not applicable to the dispute in question.

Dr. Brylowski also referenced "TAC §41.104." He did not provide the title number for referenced rule TAC §41.104, therefore, DWC performed a search for this rule within Title 28 as it is the administrative authority for general and workers' compensation insurance. Section 104 was not found in Chapter 41 that was in effect on the date of service in question. However, the language quoted in Dr. Brylowski's position statement is found in 28 TAC §42.145. It is important to note that the Texas Administrative Code, Title 28, Chapters 41 through 69 are applicable only to claims with dates of injury prior to January 1, 1991. Therefore, they do not pertain to the claim that is the subject of this dispute.

Dr. Brylowski further states that "there is no procedural definition established in the fee (Medicare) guidelines for a COMPREHENSIVE FORENSIC INDEPENDENT MEDICAL EXAMINATION." The documentation submitted to DWC fails to demonstrate how the services in question are substantively different from the defined services as billed. For this reason, DWC must review the services in question based on the fee guidelines that are applicable to those services.

Reimbursement policies for professional services are found in 28 TAC §134.203, which states, in relevant part: "(b) For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following:

- (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

Reimbursement fee guidelines for professional services are addressed in 28 TAC §134.203(c), which states in relevant part: "To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications.

- (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83 ...
- (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st

of the new calendar year ...”

3. Dr. Brylowski is seeking reimbursement for procedure code 96116 which is defined as “Neurobehavioral status exam (clinical assessment of thinking, reasoning, and judgment, [e.g., acquired knowledge, attention, language, memory, planning, and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; first hour. Behavioral exam with interpretation and report. Usually involves clinical assessment of skills in acquired knowledge, attention, memory, visual spatial abilities, language, or planning. The physician or psychologist evaluates aspects of thinking, reasoning, and judgment to evaluate a patient’s neurocognitive abilities. These codes apply to each hour of examination time and must include face-to-face time with the patient and time spent interpreting test results and preparing a report. Report 96116 for the initial hour and 96121 for each additional hour.”

Dr. Brylowski billed one unit of procedure code 96116 with appended modifiers 51 and 59. He also billed 12 units of timed add-on code 96121 with modifiers 51 and 59.

[Medicare’s CCI manual Chapter XI](#), Section M.1 states, “Neurobehavioral status exam (CPT codes 96116 and 96121) shall not be reported when a mini-mental status examination is performed. CPT codes 96116 and 96121 shall not be reported with psychiatric diagnostic examinations (CPT codes 90791 or 90792). CPT codes 96116 and 96121 may be reported with other psychiatric services or E&M services only if a complete neurobehavioral status exam is performed. If a mini-mental status examination is performed by a physician, it is included in the E&M service.”

DWC reviewed Medicare’s CCI edits for this procedure code and found that an edit exists between procedure code 90792 and 96116, with procedure code 90792 as the primary code. No modifier is allowed to override this edit. Therefore, reimbursement cannot be recommended for CPT code 96116. Because disputed timed procedure code 96121 is an add-on code for timed procedure code 96116, no reimbursement can be recommended for CPT code 96121.

4. Dr. Brylowski is seeking reimbursement for procedure code 96132, which is defined as “Neuropsychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; first hour. The physician or other qualified health care professional evaluates and interprets the results of psychological or neuropsychological testing ... Neuropsychological testing consists of a series of tests in thinking, reasoning, judgment, and memory to evaluate the patient’s neurocognitive abilities. Report 96132 for the first hour of evaluation/ interpretation and 96133 for each additional hour thereafter. Codes within this range describe the evaluation component, including combining data from different sources, interpreting test results and clinical data, decision-making, and providing a plan of treatment and report, as well as providing interactive feedback with the patient and family members or caregivers. These codes apply to each hour of evaluation and must include face-to-face time with the patient, as well as the time spent integrating and interpreting data; however, the actual test administration and scoring services

are not reported by these codes.” Disputed procedure code 96133 is a timed add-on code for procedure code 96132.

Dr. Brylowski is also seeking reimbursement for procedure code 96136, which is defined as, “Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; first 30 minutes. A physician, other qualified health care professional, or technician administers and scores two or more psychological or neuropsychological tests by any method ... neuropsychological testing consists of a series of tests in thinking, reasoning, judgment, and memory to evaluate the patient's neurocognitive abilities. Report 96136 for the initial 30 minutes of time by a physician or other qualified health care professional and 96137 for each additional 30 minutes.” Disputed procedure code 96137 is a timed add-on code for procedure code 96136.

Medicare’s CCI manual Chapter XI, Section M.2 states, “The psychiatric diagnostic interview examination (CPT codes 90791, 90792), psychological/neuropsychological testing (CPT codes 96136-96146), and psychological/ neuropsychological evaluation services (CPT codes 96130-96133) must be distinct services if reported on the same date of service. CPT Professional instructions permit physicians to integrate other sources of clinical data into the report that is generated for CPT codes 96130-96133. Since the procedures described by CPT codes 96130-96139 are timed procedures, providers/suppliers shall not report time for duplicating information (collection or interpretation) included in the psychiatric diagnostic interview examination and/or psychological/neuropsychological evaluation services or test administration and scoring.”

A review of the documentation provided does not support billing for the services defined above were performed within the billed dates of service.

The requestor has failed to demonstrate its reasoning for why this disputed fee should be paid; how the relevant Labor Code and DWC rules, including fee guidelines, impact the disputed fee issues; and how the submitted documentation supports the request for the disputed fee issue in accordance with 28 TAC §133.307(c)(2)(N). No additional reimbursement is recommended for this service.

### Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requestor has not established that additional reimbursement is due.

### **Order**

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to \$0.00 reimbursement for the disputed services.
