This process involved approximately 21 hours of physician time. Total hours of physician time for evaluation, testing administration, testing supervision, testing scoring, testing interpretation, medical record integration, collateral information integration, literature review, urine drug testing and interpretation and integration of this information into report format was approximately 26 hours.

Amount Due: \$1,571.97”

Amount in Dispute: \$3,605.77

Respondent's Position

"There are issues with the provider's billing. For example, the provider's billing time based on psych exam codes without documenting the specific time it took to complete each exam. The provider's billing an additional 12 hours of a neuro-behavioral status exam but he failed to document that it took 12 hours. Instead, the provider simply gives a general timeframe in the documentation for the whole day of testing. The problem is that the carrier cannot pay something that is time-based without documentation to support the alleged period of time that it took to complete the exam. The carrier has paid the provider all that the provider is entitled to based upon the documentation submitted by the provider."

Issues

1. What are the services considered in this review?
2. What are the applicable rules for review of the testing services in this dispute?
3. Is Dr. Brylowski entitled to reimbursement for procedure codes 96116 and 96121?
4. Is Dr. Brylowski entitled to additional reimbursement for procedure code 96137?

Findings

1. Dr. Brylowski submitted this dispute in accordance with 28 TAC §133.307 for the following procedure codes:
 - 99082-51-59
 - 99199-51-59
 - 90792-51-59
 - 96116-51-59
 - 96121-51-59
 - 96132-51-59
 - 96133-51-59
 - 96136-51-59
 - 96137-51-59

He is seeking \$0.00 for procedure codes 99082-51-59, 99199-51-59, 90792-51-59, 96132-51-

59, 96133-51-59, and 96136-51-59. Therefore, these procedure codes will not be considered in this dispute.

Dr. Brylowski is seeking \$3,605.77 for the following procedure codes:

- 96116-51-59
- 96121-51-59
- 96137-51-59

These procedures will be reviewed in this dispute.

2. The procedure codes in question are considered professional medical services. DWC will review these services for reimbursement in accordance with relevant rules.

Dr. Brylowski indicated that reimbursement should be evaluated based on rules found in "TAC §127.10" and "TAC §41.104."

While he referenced an older version of Chapter 127, Section 10, DWC finds that this rule in effect for the dates of service in question states in Subsection (c), in relevant part, "Additional testing and referrals. The designated doctor must perform additional testing when necessary to resolve the issue in question. The designated doctor must also refer an injured employee to other health care providers when the referral is necessary to resolve the issue in question, and the designated doctor is not qualified to fully resolve it.

- (1) Any additional testing or referrals required for the evaluation are not subject to preauthorization requirements.
- (2) Payment for additional testing or referrals that the designated doctor has determined are necessary under this subsection must not be denied prospectively or retrospectively, regardless of any potential disagreements about medical necessity, extent of injury, or compensability.
- (3) Any additional testing or referrals required for the evaluation are subject to the requirements of §180.24 of this title (relating to Financial Disclosure).
- (4) Any additional testing or referrals required for the evaluation of an injured employee under a certified workers' compensation network under Insurance Code Chapter 1305 or a political subdivision under Labor Code §504.053(b):
 - (A) are not required to use a provider in the same network as the injured employee; and
 - (B) are not subject to the network or out-of-network restrictions in Insurance Code §1305.101 (relating to Providing or Arranging for Health Care).

DWC reviewed the explanations of benefits submitted and found that the insurance carrier did not deny payment based on medical necessity, preauthorization requirements, extent of injury, compensability, or network status. Therefore, this rule is not applicable to the dispute in question.

Dr. Brylowski also referenced "TAC §41.104." He did not provide the title number for referenced rule TAC §41.104, therefore, DWC performed a search for this rule within Title 28 as it is the

administrative authority for general and workers' compensation insurance. Section 104 was not found in Chapter 41 that was in effect on the date of service in question. However, the language quoted in Dr. Brylowski's position statement is found in 28 TAC §42.145. It is important to note that the Texas Administrative Code, Title 28, Chapters 41 through 69 are applicable only to claims with dates of injury prior to January 1, 1991. Therefore, they do not pertain to the claim that is the subject of this dispute.

Dr. Brylowski further states that "there is no procedural definition established in the fee (Medicare) guidelines for a COMPREHENSIVE FORENSIC INDEPENDENT MEDICAL EXAMINATION." The documentation submitted to DWC fails to demonstrate how the services in question are substantively different from the defined services as billed. For this reason, DWC must review the services in question based on the fee guidelines that are applicable to those services.

Reimbursement policies for professional services are found in 28 TAC §134.203, which states, in relevant part: "(b) For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following:

- (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

Reimbursement fee guidelines for professional services are addressed in 28 TAC §134.203(c), which states in relevant part: "To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications.

- (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83 ...
- (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year ..."

3. Dr. Brylowski is seeking reimbursement for procedure code 96116 which is defined as "Neurobehavioral status exam (clinical assessment of thinking, reasoning, and judgment, [e.g., acquired knowledge, attention, language, memory, planning, and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; first hour. Behavioral exam with interpretation and report. Usually involves clinical assessment of skills in acquired knowledge, attention, memory, visual spatial abilities, language, or planning. The physician or psychologist evaluates aspects of thinking, reasoning, and judgment to evaluate a patient's neurocognitive abilities. These codes apply to each hour of examination time and

must include face-to-face time with the patient and time spent interpreting test results and preparing a report. Report 96116 for the initial hour and 96121 for each additional hour."

Dr. Brylowski billed one unit of procedure code 96116 with appended modifiers 51 and 59. He also billed 12 units of timed add-on code 96121 with modifiers 51 and 59.

[Medicare's CCI manual Chapter XI](#), Section M.1 states, "Neurobehavioral status exam (CPT codes 96116 and 96121) shall not be reported when a mini-mental status examination is performed. CPT codes 96116 and 96121 shall not be reported with psychiatric diagnostic examinations (CPT codes 90791 or 90792). CPT codes 96116 and 96121 may be reported with other psychiatric services or E&M services only if a complete neurobehavioral status exam is performed. If a mini-mental status examination is performed by a physician, it is included in the E&M service."

DWC reviewed Medicare's CCI edits for this procedure code and found that an edit conflict exists between procedure code 90792 and 96116, with procedure code 90792 as the primary code. No modifier is allowed to override this edit. Therefore, reimbursement cannot be recommended for CPT code 96116. Because disputed timed procedure code 96121 is an add-on code for timed procedure code 96116, no reimbursement can be recommended for CPT code 96121.

4. Dr. Brylowski is seeking reimbursement for procedure code 96137, which is a timed add-on code for procedure code 96136.

Procedure code 96136 is defined as, "Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; first 30 minutes. A physician, other qualified health care professional, or technician administers and scores two or more psychological or neuropsychological tests by any method ... neuropsychological testing consists of a series of tests in thinking, reasoning, judgment, and memory to evaluate the patient's neurocognitive abilities. Report 96136 for the initial 30 minutes of time by a physician or other qualified health care professional and 96137 for each additional 30 minutes."

Medicare's CCI manual Chapter XI, Section M.2 states, "The psychiatric diagnostic interview examination (CPT codes 90791, 90792), psychological/neuropsychological testing (CPT codes 96136-96146), and psychological/ neuropsychological evaluation services (CPT codes 96130-96133) must be distinct services if reported on the same date of service. CPT Professional instructions permit physicians to integrate other sources of clinical data into the report that is generated for CPT codes 96130-96133. Since the procedures described by CPT codes 96130-96139 are timed procedures, providers/suppliers shall not report time for duplicating information (collection or interpretation) included in the psychiatric diagnostic interview examination and/or psychological/neuropsychological evaluation services or test administration and scoring."

The submitted medical report does not list the start and end time to support the number of hours billed for add-on timed procedure code 96137, 21 units; therefore, Dr. Brylowski is not entitled to additional reimbursement for this code as defined.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requestor has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to additional reimbursement in the amount of \$0.00 for the disputed services.
