Requester's Position

"As clearly stated in the medical record, after personally examining this patient, I have determined that this injured worker's medical condition, indicated by and matching the ICD10 code on the CMS-1500 claim form, was a medical emergency condition on this date of service, as defined in the Texas Administrative Code... Under Texas law, no preauthorization or network participation by me, the medical provider examining and treating the patient, is required when the injured worker is diagnosed with a medical emergency condition(s) such as this patient sustained, and for which I rendered the usual, customary, and necessary treatment(s) indicated by CPT code(s) in my medical record and on the CMS-1500 claim form."

Amount in Dispute: \$392.78

Respondents' Position

"This claim is in the WorkWell, TX network. Texas Mutual has reviewed the network provider directory for the provider's name and tax identification number and confirmed HAND & WRIST CENTER OF HOUSTON DEPT A as a participant for PT/OT services only contracted through Align.

As an out-of-network provider, approval is required before rendering service or treatment. Texas Mutual did not receive or find any evidence of out-of-network approval obtained by the requestor."

Response Submitted by: Texas Mutual Insurance Company

Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

Issues

1. Are the disputed services out-of-network health care?
2. If the disputed services are out of network, is the insurance carrier liable for the disputed services under TIC §1305.006?

Findings

1. The requestor, Hand, and Wrist Center of Houston submitted medical fee dispute M4-25-0659-01 to DWC for resolution according to 28 TAC §133.307. The dispute concerns a radiographic service, evaluation and management of a new patient, and a Work Status Report provided by the requestor on May 23, 2024. Per the submitted documentation, the injured employee's claim is within the WorkWell Certified Healthcare Network.

The insurance carrier asserts that the HAND & WRIST CENTER OF HOUSTON is a participant for PT/OT services only contracted through Align. The respondent submitted documentation to support the assertion that Hand and Wrist Center of Houston is contracted with Align Network for physical medicine and occupational therapy only.

The requestor seeks reimbursement for a radiographic service, evaluation and management of a new patient, as well as a Work Status Report billed under CPT codes 73130, 99203 and 99080 respectively, rendered on May 23, 2024. DWC finds that the services in this dispute are not related to physical and occupational therapy services.

Per TLC §413.011(d-1) to (d-6) and §413.0115, as well as 28 TAC §133.4, other than for certain pharmacy, durable medical equipment, or home health care services, insurance carriers may not contract with informal or voluntary insurance networks to provide workers' compensation services effective January 1, 2011, unless such a former informal or voluntary network was certified as a workers' compensation health care network under Chapter 1305, Insurance Code, no later than January 1, 2011.

Further, the injured employee must be enrolled in the certified workers' compensation network and the certified workers' compensation network must be named on the explanation of benefits, per 28 TAC §133.240(f)(15). Based on the information provided by Texas Mutual Insurance Company, the injured employee is enrolled in the WorkWell network certified in accordance with Texas Insurance Code Chapter 1305.

Based on the information presented by the respondent for review, the division concludes the respondent has failed to support that the healthcare provider is enrolled in the WorkWell

certified healthcare network. The respondent did, however, submit sufficient documentation to support that the injured employee is enrolled in WorkWell, a certified worker's compensation HCN.

The requestor was not in the WorkWell network at the time when the date of service was rendered. As a result, the requestor provided out-of-network health care to the injured employee.

The Requestor, having provided out-of-network services, asserts that the care provided was "emergency care" such that network-based restrictions are inapplicable, and the respondent/cARRIER is required to pay in accordance with the TLC and DWC rules. A medical fee dispute of this nature is within the jurisdiction of DWC.

2. The requestor submitted the dispute requesting reimbursement for the disputed services as governed by the Texas Labor Code (TLC) legislation and rules, including 28 TAC §133.307. The requirements mentioned in the relevant sections of the TIC, Chapter 1305, are applicable to DWC's ability to apply the TLC legislation and DWC rules for out-of-network health care. TIC §1305.153 (c) provides that "Out-of-network providers who provide care as described by §1305.006 shall be reimbursed as provided by the Texas Workers' Compensation Act and applicable rules of the commissioner of workers' compensation."

TIC §1305.006 titled *INSURANCE CARRIER LIABILITY FOR OUT-OF-NETWORK HEALTH CARE* states, "An insurance carrier that establishes or contracts with a network is liable for the following out-of-network healthcare that is provided to an injured employee:

- (1) emergency care;
- (2) health care provided to an injured employee who does not live within the service area of any network established by the insurance carrier or with which the insurance carrier has a contract; and
- (3) health care provided by an out-of-network provider pursuant to a referral from the injured employee's treating doctor that has been approved by the network pursuant to §1305.103."

The requestor has the burden to prove that the conditions outlined in TIC §1305.006 were met for the insurance carrier to be liable for the disputed services. The provider in this case provided a statement indicating that he is a licensed physician who personally examined the injured employee and had determined that a medical emergency had occurred. However, the opinion and the supporting documentation did not provide a basis or explanation to conclude that the date of service was emergency care. DWC finds that the requestor failed to provide documentation to support that any of the conditions of TIC §1305.006 were met in this dispute. As a result, DWC finds that the insurance carrier is not liable for the out-of-network health care in dispute.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered. DWC concludes that the insurance carrier is not liable for the disputed services.

Order

Based on the submitted information, pursuant to the Texas Labor Code 413.031, the DWC hereby determines the requestor is entitled to \$0.00 reimbursement for the services in dispute.
