Issues

1. What is DWC considering in this medical fee dispute?
2. Is the insurance carrier's denial of payment based on extent of injury supported and compensability?
3. Is the insurance carrier's denial of payment based on coverage supported?
4. Is the requester entitled to reimbursement?

Findings

1. The requester is seeking reimbursement of \$111.50 for sending medical documentation to a designated doctor billed with procedure code 99080 for one unit on date of service June 9, 2025. The insurance carrier denied payment in full. DWC will review this service for reimbursement.
2. An explanation of benefits dated July 21, 2025, denied payment, in part, based on the extent of the compensable injury and compensability. Because the services in question are submission of medical records to a designated doctor as ordered by DWC, extent of injury does not apply. This denial reason is not supported.
3. An explanations of benefits dated June 18, 2025, included the following denial reasons:
 - The procedure code was invalid on the date of service.
 - NCCI edits

DWC finds that CPT code 99080 was a valid code on the date of service in question.

Although DWC adopts Medicare payment policies by reference in applicable rule 28 TAC §134.203, the relevant portion of paragraph (a)(7) of that rule states that specific provisions contained in the Texas Labor Code or DWC rules shall take precedence over any conflicting provision adopted or utilized by CMS in administering the Medicare program.

DWC finds that the CMS provision that bundles the service in question is in direct conflict with 28 TAC Section 127.10(a)(1), which states, in relevant part, "The treating doctor and insurance carrier must provide the designated doctor copies of all the injured employee's medical records in their possession relating to the medical condition to be evaluated by the designated doctor ... (B) The cost of copying must be reimbursed in accordance with §134.120 of this title ..."

DWC finds that submission of medical documents to a designated doctor is a covered service and not subject to Medicare bundling. The insurance carrier's denial of payment for this reason is not supported.

4. DWC finds that 28 TAC Section 133.10(f)(1)(T) requires the number of units for the billed service in CMS-1500, field 24G. The requester billed one unit in this field.

28 TAC Section 134.120(f)(1) states that the reimbursement for copies of medical

documentation is \$.50 per page. In a document dated June 9, 2025, submitted as evidence, the requester indicated that it submitted "223 pages of medical records." However, since the requester only indicated a single unit on the medical bill, the maximum allowable reimbursement (MAR) would be \$0.50.

Based on the evidence presented, the requester is seeking \$111.50. DWC finds that the service as billed does not support entitlement to this amount. DWC finds that the requester is not entitled to reimbursement for the service in question.

Conclusion

The outcome of this medical fee dispute is based on the evidence requester and the respondent presented at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has not established that reimbursement is due.

Order

Under Texas Labor Code Sections [413.031](#) and [413.019](#), DWC has determined the requester is entitled to \$0.00 reimbursement for the disputed services.
