### Issues

1. What Rule applies to the reimbursement of the service in dispute?
2. Is the requester entitled to additional reimbursement for the disputed service?

### Findings

1. This medical fee dispute involves facility charges for surgical services rendered in a licensed ambulatory surgical center. The requester, Legent Outpatient Surgery Frisco, is requesting additional reimbursement for surgical procedure code 23430.

DWC Rule 28 TAC §134.402 (d), which applies to the disputed service, requires Texas Workers' Compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

The Medicare payment policy applicable to the services in dispute is found at [www.cms.gov](http://www.cms.gov), Claims processing Manual, Chapter 4, Section 10.1.2 specifically Ambulatory Surgical Center Services on ASC list. Beginning with the implementation of the 2008 revised payment system, the labor related adjustments to the ASC payment rates are based on the Core-Based Statistical Area (CBSA) methodology. Payment rates for most services are geographically adjusted using the pre-reclassification wage index values that CMS uses to pay non-acute providers. The adjustment for geographic wage variation will be made based on a 50 percent labor-related share.

DWC Rule 28 TAC §134.402 (f) states in pertinent part the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the Federal Register.

Reimbursement shall be based on the fully implemented payment amount published in the Federal Register. Reimbursement for device intensive procedures shall be the sum of the ASC device portion and the ASC service portion multiplied by 235 percent.

2. The requester is seeking additional reimbursement in the amount of \$627.84 for procedure code 23430 rendered on April 4, 2025, in a licensed ambulatory surgical center. On the disputed date of service, the requestor billed for one unit of procedure code 23430-LT-59 along with other related surgical procedure codes. Per review of the submitted DWC060 Medical Fee Dispute Resolution (MFDR) Request form, procedure code 23430 is the only procedure code in dispute, therefore, only this procedure code will be reviewed and adjudicated. Separate reimbursement for implants was not requested on the medical bill.

In accordance with 28 TAC §134.402, the MAR for the service in dispute is calculated as follows:

Procedure Code 23430 has an ASC payment indicator of J8 which indicates a device intensive procedure paid at an adjusted rate.

The following formula is used to calculate the MAR:

Step 1 calculating the **device portion** of the procedure:

Per 28 TAC §134.402 (b)(2), "ASC device portion" means the portion of the ASC payment rate that represents the cost of the implantable device and is calculated by applying the Centers for Medicare and Medicaid Services (CMS) Outpatient Prospective Payment System (OPPS) device offset percentage to the OPPS payment rate. The device offset percentage information can be found in the [CMS OPPS Addendum P](#).

- The national reimbursement is found in Addendum B for National Hospital Outpatient Prospective Payment System (OPPS). The rate for procedure code 23430 on the applicable date of service = \$7,143.73.
- The device dependent APC offset percentage for National Hospital OPPS in Addendum P for code 23430 on the applicable date of service is 29.56%.
- Multiply the above \$7,143.73 x 29.56% = \$2,111.687, the device portion of the procedure.

Step 2 calculating the **service portion** of the procedure:

Per 28 TAC §134.402 (b)(3), "ASC service portion" means the Medicare ASC payment rate less the device portion.

- Per Addendum AA, the Medicare ASC reimbursement rate for code 23430 for CY 2025 is \$4,603.45.
- This number is divided by 2 = \$2,301.725.
- This number multiplied by the CBSA for the Dallas, Texas region of 0.9673 = \$2,226.459.
- The sum of these two, \$2,301.725 + \$2,226.459, is the geographically adjusted Medicare (MC) ASC reimbursement \$4,528.184.
- The service portion is found by subtracting the device portion \$2,111.687 from the geographically adjusted MC ASC rate \$4,528.184 = \$2,416.497.
- Multiply the service portion by the DWC payment adjustment of 235% = \$5,678.768, the final DWC service portion amount.

Step 3 calculating the **MAR**:

- The MAR is determined by adding the sum of the device portion \$2,111.687 and the final DWC service portion \$5,678.768 = \$7,790.455.

DWC finds the MAR for the disputed CPT code 23430, rendered on April 4, 2025, is \$7,790.46. The insurance carrier paid \$7,162.63. Therefore, additional reimbursement in the amount of \$627.83 is recommended.

### Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has established that additional reimbursement in the amount of \$627.83 is due.

## Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requester is entitled to additional reimbursement for the service in dispute. It is ordered that the Respondent, Frisco ISD, must remit to the Requester, Legent Outpatient Surgery Frisco, \$627.83 plus applicable accrued interest within 30 days of receiving this order in accordance with 28 TAC §134.130.
