Requester's Position

"As clearly stated in the medical record, after personally examining this patient, I have determined that this injured worker's medical condition, indicated by and matching the ICD10 code on the CMS-1500 claim form, was a medical emergency condition on this date of service, as defined in the Texas Administrative Code... Under Texas law, no preauthorization or network participation by me, the medical provider examining and treating the patient, is required when the injured worker is diagnosed with a medical emergency condition(s) such as this patient sustained, and for which I rendered the usual, customary, and necessary treatment(s) indicated by CPT code(s) in my medical record and on the CMS-1500 claim form."

Amount In Dispute: \$338.34

Respondent's Position

"This claim is in the Work Well, TX network. Texas Mutual has reviewed the network provider directory for the provider's name and tax identification number and confirmed no record of Hand and Wrist Center of Houston or Dr. Mark Henry as a participant.

"The provider directory does show Hand and Wrist Center of Houston, TIN #... as a participant in the Align network for physical and occupational therapy only. Disputed treatment doesn't fall under physical medicine.

"As an out-of-network provider, approval is required before rendering service or treatment. Texas Mutual did not receive or find any evidence of out-of-network approval obtained by the requestor... Our position is that no payment is due."

Response Submitted By: Texas Mutual Insurance Co.

Issues

1. Are the disputed services out-of-network health care?
2. If the disputed services are out of network, is the insurance carrier liable for the disputed services under TIC §1305.006?

Findings

1. The requester, Hand and Wrist Center of Houston submitted medical fee dispute M4-26-1648-01 to DWC for resolution according to 28 TAC Section 133.307. The dispute concerns professional medical services provided by the requester on October 9, 2025. Per the submitted documentation, the injured employee's claim is within the WorkWell Certified Healthcare Network.

The insurance carrier states in pertinent part, "The provider directory does show Hand and Wrist Center of Houston, TIN #... as a participant in the Align network for physical and occupational therapy only. Disputed treatment doesn't fall under physical medicine." The respondent submitted documentation to support the assertion that Hand and Wrist Center of Houston is contracted with Align Network for physical and occupational therapy only.

The requester seeks reimbursement for application of a splint, a radiographic service and a Work Status Report billed under CPT codes 29130, 73140 and 99080-73, respectively, rendered on October 9, 2025. DWC finds that the services in this dispute are not related to physical and occupational therapy services.

Per TLC §413.011(d-1) to (d-6) and §413.0115, as well as 28 TAC §133.4, other than for certain pharmacy, durable medical equipment, or home health care services, insurance carriers may not contract with informal or voluntary insurance networks to provide workers' compensation services effective January 1, 2011, unless such a former informal or voluntary network was certified as a workers' compensation health care network under Chapter 1305, Insurance Code, no later than January 1, 2011.

Further, the injured employee must be enrolled in the certified workers' compensation network and the certified workers' compensation network must be named on the explanation of benefits, per 28 TAC §133.240(f)(15). Based on the information provided by Texas Mutual Insurance Company, the injured employee is enrolled in the WorkWell network certified in accordance with Texas Insurance Code Chapter 1305.

Based on the information presented by the respondent for review, the division concludes the respondent has failed to support that the healthcare provider is enrolled in the

WorkWell certified healthcare network. The respondent did, however, submit sufficient documentation to support that the injured employee is enrolled in WorkWell, a certified worker's compensation HCN.

The requester was not in the WorkWell network at the time the date of service was rendered. As a result, the requester provided out-of-network health care to the injured employee.

The requester, having provided out-of-network services, asserts that the care provided was "emergency care" such that network-based restrictions are inapplicable, and the respondent/ carrier is required to pay in accordance with the TLC and DWC rules. A medical fee dispute of this nature is within the jurisdiction of DWC.

2. The requester submitted the dispute requesting reimbursement for the disputed services as governed by the Texas Labor Code (TLC) legislation and rules, including 28 TAC §133.307. The requirements mentioned in the relevant sections of the TIC, Chapter 1305, are applicable to DWC's ability to apply the TLC legislation and DWC rules for out-of-network health care. TIC §1305.153 (c) provides that "Out-of-network providers who provide care as described by §1305.006 shall be reimbursed as provided by the Texas Workers' Compensation Act and applicable rules of the commissioner of workers' compensation."

TIC §1305.006 titled INSURANCE CARRIER LIABILITY FOR OUT-OF-NETWORK HEALTH CARE states, "An insurance carrier that establishes or contracts with a network is liable for the following out-of-network healthcare that is provided to an injured employee:

- (1) emergency care;
- (2) health care provided to an injured employee who does not live within the service area of any network established by the insurance carrier or with which the insurance carrier has a contract; and
- (3) health care provided by an out-of-network provider pursuant to a referral from the injured employee's treating doctor that has been approved by the network pursuant to §1305.103."

The requester therefore has the burden to prove that the exceptions outlined in the TIC §1305.006 were met for the insurance carrier to be liable for the disputed services. The requester contends that the disputed services were provided for emergency care in TIC §1305.006(1). TIC §1305.006(2) and (3) were not shown to be applicable in this case.

DWC concludes that the provider failed to meet its burden of proof to establish that the dates of service in dispute were emergency care. TAC §133.307(c)(2)(N) requires a position statement including: (i) the requester's reasoning for why the disputed fees should be paid or refunded, (ii) how the Labor Code and DWC rules, including fee guidelines, impact the disputed fee issues, and (iii) how the submitted documentation supports the requester's position for each disputed fee issue. The position statement did not explain how the care provided on the dates of service was emergency care under TIC §1305.006. Furthermore, for

the dates of service at issue, the documentation provided was not sufficient to show that the care provided was for a medical emergency as defined in TIC §1305.004(13). Because the treatment for these dates of service was not shown to be emergency care, the insurance carrier is not liable for this non-network care under TIC §1305.006.

Conclusion

The outcome of this medical fee dispute is based on the evidence requester and the respondent presented at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC concludes that the insurance carrier is not liable for the disputed services.

Order

Under Texas Labor Code Sections [413.031](#) and [413.019](#), DWC has determined the requester is entitled to \$0.00 reimbursement for the disputed services.
