

## Prescription Drug Cost Transparency Pharmacy Benefit Managers

This document contains aggregate data from 19 pharmacy benefit managers (PBMs) from the 2019 calendar year. The data was collected under House Bill 2536, passed by the 2019 Texas Legislative Session. The Texas Department of Insurance did not audit the data; instead, the agency is reporting the data as reported by the PBMs.

The following table shows the aggregated rebates, fees, price protection payments, and any other payments collected from pharmaceutical drug manufacturers as reported by PBMs that responded to the data call. One PBM out of 19 was excluded from the table because it could not provide a breakdown of total payments passed to issuers and enrollees or the amount retained as revenue. The excluded PBM accounted for less than 1 percent of total payments to PBMs.
