Revisions to DWC Form-067 include minor updates to the applicant information, disclosure questions, and applicant authorization, attestation, and release sections for compliance and clarity. The revised form minimizes the use of an applicant's social security number for tracking purposes by using the applicant's medical license number instead. Revisions also include global form changes for consistency with other division forms. In addition, TDI-DWC will post an edited track change copy of the original form for ease in reviewing the minor updates.
