RE: Health Care Provider System Moving to TXCOMP

On Monday, August 19, the health care provider system ("Provider") is moving to the TXCOMP Claims and Coverage system ("TXCOMP"). This change is being made to consolidate and modernize the Division of Workers' Compensation's (DWC) enterprise systems.

System participants can use TXCOMP to look up health care providers, including doctors certified by DWC to perform designated doctor and maximum medical improvement examinations.

The TXCOMP system can be accessed from the workers' compensation section of the Texas Department of Insurance website at <http://www.tdi.texas.gov/wc/index.html> or directly at <https://appscenter.tdi.texas.gov/TXCOMPWeb/common/home.jsp>.
